A Different Paradigm in Music Education David A. Williams, 2019-03-13. *A Different Paradigm in Music Education* is a let's consider some possibilities book. Instead of a music methods book, it is a look at where the music education profession is and how music teachers might improve what it is we do. It is about change. It is about questioning the current music education paradigm, especially regarding its exclusive role as the only model. The intent is to help pre-service and in-service music educators consider new modes of pedagogical thought that will allow us to broaden our reach in schools and better help students develop as creative musicians across their lifespan. The book includes an overview of several opportunities and course examples that would make music education more relevant and meaningful, especially for students that are not interested in our traditional performance offerings. The author wishes to stimulate discussions with the goal for the music education profession to grow and mature.

Dynamic Group-Piano Teaching Pamela Pike, 2017-05-08. *Dynamic Group Piano Teaching* provides future teachers of group piano with an extensive framework of concepts upon which effective and dynamic teaching strategies can be explored and developed. This book encourages teachers to transfer learning and group dynamics theory into classroom practice. As a piano pedagogy textbook supplement for pedagogy classes or resource for graduate teaching assistants and professional piano teachers, the book examines learning theory, student needs assessment, and specific issues for the group piano instructor.

Music in Our Lives Gary E. McPherson, Jane W. Davidson, Robert Faulkner, 2012-03-22. Why do some children take up music while others don't? Why do some excel while others give up? *Music in our lives* takes an innovative approach to answering these questions. It is drawn from a research

project that spanned fourteen years and closely followed the lives of over 150 children learning music with enlightening conclusions
