Modern Literature classics option written at the University of Rennes 2 defended in 2012 While it can borrow from history
through a certain number of historical archives this research work borrows more from legend and literary sources that made
it possible to free the second Duke of Normandy a Viking and son of the Viking Rollo founder of Normandy in 911 from
anonymity Indeed this academic work is the first to deal with a character that is not sufficiently known sometimes confused
with a homonym but of fundamental importance The choice of the title The Estory of William Longsword can be explained by
the following considerations it is a question of history but signifying by this choice that it will be a question of entering into
this history of preserving as much as possible its medieval character its medieval meaning and therefore not only of being the
modern observer of a timeless sequence It will not be history but a story that is told In 7 chapters all the dimensions inherent
to such publications will be revealed including the sources the gaps between the story and the texts the legendary dimension
of the character his human dimension the mysteries to be discovered Le monde illustré ,1865 , Revue des deux
