Engstrom, Leon Edwards Hay, 1996 Engstrom and Copleys Essentials of Accounting for Governmental and Not for Profit Organizations 6e is well received by those professors whose objective is to provide less detailed coverage than is available in larger texts as well as by those whose objective is to prepare accounting majors for the uniform CPA Examination. Chang, 2013-11-20 As the service sectors play an increasingly important role in all economies worldwide, service executives and professionals are well advised to recognize two main pathways to achieving sustainable success in services. The first path requires enhancing the strategic differentiation and operational excellence of their service enterprises; the second requires that these executives and their employees develop the knowledge and skills needed to achieve such success. Specifically, this book discusses actionable methodologies needed to generate creative ideas, including deciding on which ones to pursue, on how to justify projects financially, on how to manage the development projects for innovative services, and on how to reach out to customers and offer them superior service support. The evaluation of financial risk profile of the companies and the mandatory disclosure on Liquidity and Credit Risk Olga Cucaro, 2020-10-18

THE EVALUATION OF FINANCIAL RISK PROFILE OF THE COMPANIES AND THE MANDATORY DISCLOSURE ON LIQUIDITY AND CREDIT RISK is a work born from a careful study of the evolution of the Italian and European legislation on the subject of financial risk communication and in particular of IFRS 7 Financial Instruments Disclosure. Thanks to this international accounting standard, Italian listed companies have included a greater number of disclosures on financial risks in their financial statements, but while there is no

doubt the quantitative increase in information the qualitative value of this communication is doubtful In this regard the study analyzes the usefulness of the disclosure introduced by IFRS 7 for financial analysts The choice of analysts is a natural choice due to the importance they hold as intermediaries in the communication channel between companies and the market

Evans, Chul Ju Kim, Farhad Taghizadeh-Hesary, 2022-07-11 A robust and efficient tax administration in a modern tax system requires effective tax policies and legislation Policy frameworks should cover all aspects of tax administration and include the essential processes of capturing processing analyzing and responding to information provided by taxpayers and others concerning taxpayers affairs By far the greatest challenges facing tax administrations in all countries are those posed by the continuing developments in the digital economy Whereas societies are grappling to come to terms with the transitions from the third industrial or digital revolutions revenue authorities grapple with the consequences for the sustainability of their tax bases and the efficient administration and collection of taxes This book presents a critical review of the status of tax systems in Asia and the Pacific in the era of the digital economy The book suggests how countries can maximize their domestic resource mobilization when confronted by the challenges that digitalization inevitably produces as well as how they can best harness or take advantage of aspects of digitalization to serve their own needs The full implications of the COVID 19 crisis are still too uncertain to predict but it is clear that the crisis will accelerate the trend towards digitalization and also increase pressures on public finances This in turn may shape the preference for and the nature of both multilateral and unilateral responses to the tax challenges posed by digitalization and the need to address them This book will be a timely reference for those researching on taxation in digital economy and for policy makers The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
