Limpossible Capitalisme Vert:

L'impossible capitalisme vert Daniel Tanuro, 2015-03-12 Dans la logique de La Simplicité volontaire contre le mythe de l'abondance de Paul Ariès et de Au temps des catastrophes d'Isabelle Stengers ce livre articule les luttes économiques et sociales au combat pour la protection de l'environnement Cette édition numérisée reprend l'identique la deuxième édition de 2012 D'un côté trois milliards de gens vivent dans des conditions indignes de l'humanité Enseignement sans énergie eau alimentation mobilité logement individuellement leurs besoins sont modestes mais au total ils sont énormes Les satisfaire n'est possible qu'en augmentant la production matérielle De l'autre côté deux cents ans de productivisme ont mené le système climatique au bord de l'infarctus viter que les changements climatiques s'emballent et frappent des centaines de millions d'êtres humains impose de réduire radicalement les émissions de gaz effet de serre Donc la consommation des énergies fossiles n'est plus tenable aujourd'hui la transformation des ressources prélevées dans l'environnement Donc la production matérielle Comment stabiliser le climat tout en satisfaisant le droit légitime au développement de celles et ceux qui n'ont rien ou si peu et qui sont en même temps les principales victimes du réchauffement C'est le casse-tête du siècle Dans ce livre Daniel Tanuro propose de concilier l'écologie et le projet socialiste parce que le capitalisme ne saura rien résoudre Contre les sceptiques il montre le fonctionnement exemplaire des scientifiques au sein du GIEC mais aussi comment les gouvernements sous-estiment en permanence ses recommandations Il montre aussi que le marché du carbone a pour principal résultat d'enrichir et de renforcer les grands pollueurs ceux qui ont intérêt à brûler des combustibles fossiles le plus longtemps possible Si l'on n'est pas capable d'articuler les luttes économiques et le combat pour la protection de l'environnement le capitalisme causera des catastrophes sociales et environnementales de grande ampleur Quelles erreurs ceux qui se réclament du socialisme ont-ils commises pour que cette articulation semble aujourd'hui si difficile Cette édition numérisée reprend l'identique la deuxième édition de 2012

Critical Strategies for Ecological Architectures Mathias Rollot, 2025-11-01 This book addresses the alarming state of the planet and considers a potential new role for architecture in the Anthropocene It explores ways in which architecture could contribute to solutions as well as how the discipline should prepare for the future Drawing on other disciplines such as bioregionalism animalism and decolonial thinking it demonstrates how architecture can extend its relevance The book introduces new theoretical approaches that encourage completely different ways of thinking showing and designing It introduces concepts such as human energy decolonial bioregionalism and emancipatory architecture which serve to challenge anthropocentric theories and promote more sustainable architectural practices This book makes an ethical appeal to architects and non architects alike proposing new strategies for thinking teaching and creating a wholly different kind of architecture for a rapidly changing world In doing so it addresses the challenges facing contemporary societies and ecological changes demonstrating how the ecological humanities can transform architecture as a field and radically alter its history references values and aims The book aims to contribute to a metamorphosis of architecture towards greater

Communism and Strategy Isabelle Garo, 2023-04-18 If the question of communism is making a comeback today this renewed interest is often accompanied by an abandonment of any concrete political perspective Critical philosophies are flourishing and proliferating but folded into the academic terrain they often remain disconnected from the global issues associated with the present crisis of capitalism contributing in turn to the fragmentation of the resistances that are opposed to it Instead of locking the perspective of emancipation into the registers of utopia or relegating it to the side of an empty populism Isabelle Garo studies in this book the conditions of a contemporary revival of the alternative as a collective construction anchored in real aspirations and struggles and inseparable from a rethinking of the theoretical work By addressing the impasses faced by many of the most fashionable radical theorists Badiou Laclau the theorists of the commons and revisiting them in relation to Marx and Gramsci also allows us to re read the latter from the point of view of contemporary questions of the state and the party of work and property of conflict and hegemony Thus to rethink strategy is above all to re explore the question of mediations whether they be forms of organisation or existing mobilisations as sites par excellence of political invention

Rethinking Revolution Leo Panitch, Greg Albo, 2016-12 One hundred years ago October 1917 galvanized leftists and oppressed peoples around the globe and became the lodestar for 20th century politics Today the left needs to reckon with this legacy and transcend it Social change as it was understood in the 20th century appears now to be as impossible as revolution leaving the left to rethink the relationship between capitalist crises as well as the conceptual tension between revolution and reform Populated by an array of passionate thinkers and thoughtful activists Rethinking Revolution reappraises the historical effects of the Russian revolution positive and negative on political intellectual and cultural life and looks at consequent revolutions after 1917 Change needs to be understood in relation to the distinct trajectories of radical politics in different regions But the main purpose of this Socialist Register edition one century
