Another Encyclopedia of Theme Activities for Young Children Stephanie Roselli, Kathy Charner, Brittany Roberts, 2012. Provides over three hundred activities for young children both in and out of the classroom organized thematically and includes such themes as building and construction, health and nutrition and science and nature.

Festival Lights Sarah Davis, AI, 2025-03-06. Festival Lights explores why diverse cultures celebrate with light particularly during the darkest months. It examines festivals like Hanukkah, Diwali and the Chinese Lantern Festival, revealing how light symbolizes hope, renewal and the triumph of good. These celebrations highlight our shared human experiences and the varied ways we seek meaning. For instance, Hanukkah commemorates a miracle where oil burned for eight nights while Diwali celebrates the victory of light over darkness. The book journeys through the historical origins and evolving traditions of each festival, emphasizing the socio-political and religious contexts that shaped them. It's structured to first introduce light as a universal symbol, then delve into the rituals and symbolism of each festival and finally provide comparative analysis to reveal shared themes. This approach makes it easy to understand both the unique aspects and the connecting threads between these celebrations, valuable for anyone interested in World History and cultural diversity.
