**New Interior Design** Nigel Coates, 2004-12-14 The book is designed to give a stimulating idea of the current direction of international interior design by Nigel Coates one of the foremost practitioners in the field The author has selected approximately 30 international designers whose work he thinks is especially interesting The book will then present a selection of work by these designers in such a way that the relations between different designers both the differences and similarities are brought out as well as broader themes in current interior design While each project selected will be featured over a series of pages the same project may crop up at various other points through book The purpose of this is to draw comparisons between each project by letting them cross over into one another s territory Hence Collidoscope the provisional title of the publication As such it should work both as a sourcebook with reference to current tendencies in design and to the

ideas that underpin them It will foreground the designers yet raise challenging differences and overlaps between them
