National Teaching Standards Board:

Toward High and Rigorous Standards for the Teaching Profession National Board for Professional Teaching Standards (U.S.),1991 National Board for Professional Teaching Standards National Board for Professional Teaching Standards, Arlington, VA.,2008 The National Board for Professional Teaching Standards NBPTS is an independent nonprofit nonpartisan and nongovernmental organization that develops professional standards for early childhood elementary and secondary school teaching National Board Certification signifies that a teacher or school counselor is accomplished having met challenging professional standards as evidenced by performance based assessments The assessment process for National Board Certification is designed to collect standards based evidence of accomplished practice In all certificate areas candidates for National Board Certification are required to complete two major components a portfolio of classroom practice and an assessment of content knowledge administered at a computer based testing center This guide is an introduction to the assessment process and eligibility requirements and provides useful information for applying for National Board Certification The guide also contains information for those opting for Take One which is a unique offering from the NBPTS that improves teaching quality by providing educators with the opportunity to reflect on their own classroom instructional practices within the context of national teaching standards and later begin the path toward National Board candidacy if they so choose

Why National Board for Professional Teaching Standards (U.S.),1994 *Assessing Accomplished Teaching* Committee on Evaluation of Teacher Certification by the National Board for Professional Teaching Standards,Board on Testing and Assessment,Division of Behavioral and Social Sciences and Education,National Research Council,2008-09-18 The mission of the National Board for Professional Teaching Standards NBPTS is to establish high and rigorous standards for what teachers should know and be able to do to certify teachers who meet those standards and to advance other education reforms for the purpose of improving student learning in American schools In response to a request from the U S Congress the National Research Council developed a framework for evaluating programs that award advanced level teacher certification and applied that framework in an evaluation of the impacts of the NBPTS Specifically this book addresses the impacts on students teachers and the educational system in this country *Assessing Accomplished Teaching* finds that teachers who earn board certification are more effective at improving their students achievement than other teachers but school systems vary greatly in the extent to which they recognize and make use of board certified teachers Many of the questions on the evaluation framework could not be answered because the data have not been collected and the report makes recommendations for the kinds of research that are needed to fully evaluate the impacts of board certification by the NBPTS *Voices of Influence* National Board For Professional Teaching Standards,2008-07 **Why America Needs National Board Certified Teachers. National Board for Professional Teaching Standards** National Board for Professional Teaching Standards, Arlington, VA.,2004 Many excellent teachers already work in the schools Unfortunately their work regularly goes

unrecognized and unrewarded As a consequence many first rate practitioners leave the schools and others who could be exceptional teachers never consider teaching Worse still the knowledge and skills of the fine teachers who remain often are underutilized their positive influence allowed only the most modest scope In recognition of these challenges the nation has begun to take several steps forward The leadership of the nation s education community has coalesced to create a National Board for Professional Teaching Standards The National Board s mission is to advance the quality of teaching and learning by

- 1 maintaining high and rigorous standards for what accomplished teachers should know and be able to do
- 2 providing a national voluntary system certifying teachers who meet these standards and
- 3 advocating related education reforms to integrate National Board Certification in American education and to capitalize on the expertise of National Board Certified Teachers
