Handbook of Disaster Research Havidán Rodríguez, William Donner, Joseph E. Trainor, 2017-11-16 This timely Handbook is based on the principle that disasters are social constructions and focuses on social science disaster research. It provides an interdisciplinary approach to disasters with theoretical, methodological, and practical applications. Attention is given to conceptual issues dealing with the concept of disaster and to methodological issues relating to research on disasters. These include Geographic Information Systems as a useful research tool and its implications for future research. This seminal work is the first interdisciplinary collection of disaster research as it stands now while outlining how the field will continue to grow.

Ecosystem-Based Adaptation Arvind Kumar, 2022-02-16 Ecosystem Based Adaptation Approaches to Sustainable Management of Aquatic Resources presents a close examination of the role of ecosystem based adaptation in managing river basins, aquifers, flood plains, and their vegetation to provide water storage and flood regulation. Furthermore, the book explores improved ecosystem based services for managing floods, conservation of water, and its resources, including watersheds, avoiding water scarcity, and ensuring long-term water security planning, all in the context of sustainable development goals. This book will help scientists pave the way for easy implementation of sustainable development goals, ensuring a secure and sustainable future. Presents information in an easy-to-follow manner using tables, figures, and graphs where applicable, along with case studies from all continents. Provides a reference for experts to use as an authoritative source to support environmental action and regulation. Delineates the role of ecosystem based adaptation in sustainable management and in the restoration of watershed forests and wetlands.
