

Word 2007 Exercises

Activity 1 – Entering Text & Saving

- Start up Word and type the text below into a new document:

What is a word processor?

A word processor enables you to write letters, reports, memos and much, much more quickly and efficiently. It will also enable you to print them out and store them for future reference, amending or altering them as you wish.

Generally speaking, a word processor functions in the same way as a highly sophisticated typewriter. You don't have to interrupt your work in any way when a line fills up or you reach the end of a page. Word automatically advances your text onto a new line or a new page whenever it needs to. Thanks to the many different types of printers available you can create professional and attractive documents to be proud of.

- Choose **Save As** from the **Office Button** name it **Word processing.docx** and click **Save**
- Create a new blank document (via the **Office Button**) and type in **Your Name and Room Number**
- Save this document, with the name **My Details.docx** (try using the **Save** button on the **Quick Access toolbar**)
- You now have **two** documents, which should both still be open
- Use the **Taskbar** to switch between them or
- On the **View** tab in the **Window** group, click **Switch Windows**
- Close both documents (via the **Office Button**) but leave **Word** open

Activity 2 –Text Formatting
