Each of the 600 questions has complete rationales for all correct and incorrect choices and a second critical reasoning rationale identifies the reasoning strategy used: inductive, deductive, analysis, inference or evaluation methodology required and specific area of knowledge needed to correctly answer each question. The New CD has Pass the NPTE software that provides the unique ability to create an exam using the entire 600 question database. Test yourself in specific domains, content categories and critical reasoning skills or limit the number of questions to fit the time available.
