Fixico,2013-10-10 Indian Resilience and Rebuilding provides an Indigenous view of the last one hundred years of Native history and guides readers through a century of achievements It examines the progress that Indians have accomplished in rebuilding their nations in the 20th century revealing how Native communities adapted to the cultural and economic pressures in modern America Donald Fixico examines issues like land allotment the Indian New

Smith,1999 In this work of historically informed political theory Kimberly Smith sets out to understand how nineteenth century Americans answered the question of how the people should participate in politics Did rational public debate the ideal that most democratic theorists now venerate transcend all other forms of political expression How and why did passion disappear from the ideology if not the practice of American democracy To answer these questions she focuses on the political culture of the urban North during the turbulent Jacksonian Age roughly 1830 50 when the shape and character

of the democratic public were still fluid Smith's method is to interpret in light of such popular discourse as newspapers and novels several key texts in nineteenth century American political thought Frederick Douglass's Fourth of July speech and Narrative Angelina Grimke's debate with Catharine Beecher Frances Wright's lectures and Harriet Beecher Stowe's Uncle Tom's Cabin Such texts Smith finds highlight many of the then current ideas about the extremes of political expression Her readings support the conclusions that the value of rational argument itself was contested that the emergent Enlightenment rationalism may have helped to sterilize political debate and that storytelling or testimony posed an important challenge to the norm of political rationality Smith explores facets of the political culture in ways that make sense of traditions from Whiggish resistance to Protestant narrative testimony She helps us to understand such puzzles as the point of mob action and other ritualistic disruptions of the political process our simultaneous attraction to and suspicion of political debates and the appeal of stories by and about victims of injustice Also found in her book are keen analyses of the antebellum press and the importance of oratory and public speaking Smith shows that alternatives to reasoned deliberation like protest resistance and storytelling have a place in politics Such alternatives underscore the positive role that interest passion compassion and even violence might play in the political life of America Her book therefore is a cautionary analysis of how rationality came to dominate our thinking about politics and why its hegemony should concern us Ultimately Smith reminds the reader that democracy and reasoned public debate are not synonymous and that the linkage is not necessarily a good thing

Marxism and Native Americans Ward Churchill, 1983 In a unique format of intellectual challenge and counter challenge prominent Native Americans and Marxists debate the viability of Marxism and the prevalence of ethnocentric bias in politics culture and social theory The authors examine the status of Western notions of progress and development in the context of the practical realities faced by American Indians in their ongoing struggle for justice and self determination This dialogue offers critical insights into the nature of ecological awareness and dialectics and into the possibility of constructing a social theory that can bridge cultural boundaries
