

guided relaxation

"Peaceful Breathing"

with Mellisa Dormoy
of Shambala Kids

The subconscious mind of your child is very susceptible and open right before going to bed and right after waking up in the morning. Take advantage of this special time and remind your child how wonderful he or she is, how much he's loved and how very proud of him you are. These affirmations can make a world of difference to your child, and can help ease stress and worries.

This guided breathing meditation calms, relaxes and eases busy minds. Next we'll focus our attention on details – an important foundation of meditation at any age and finally we'll use some feel good imagery that you can encourage your child to use every day.

"Close your eyes and take in a very slow, deep breath. Continue breathing deeply and feel the cool air come in through your nose and flow all the way down to your belly. Feel your belly expand out as you breathe deeply. Notice how the breath feels as it softly flows in through your nose, into your throat, and further and further down it goes. Make sure your belly is moving slowly up and down as you inhale and exhale.

Isn't it nice to feel this calm and quiet after the wonderful active day you've had? It's really good for our bodies and our minds just to feel this calming breath flowing in and out. When we learn to pay attention to our breathing, we're actually practicing meditation. Meditation helps us focus and it gives us peace. Everyone wants to be peaceful! Meditation is simply being very focused and calm within.

Now for this moment, just listen very carefully to all the quiet sounds outside of you and all around you. You may hear outside noises. You may hear cars, birds or perhaps something else. It's perfectly okay. We're just learning to pay attention... so just listen. (Pause) Now, turn your focus inward. Listen very carefully and quietly to what you hear happening within your body. Can you hear your heart beating? (Pause) Can you hear your breath as you breathe slowly and calmly in and out? Maybe your tummy is making noises; maybe everything is very, very quiet. Whatever is going on inside, just take the time to listen very carefully and notice everything that's going on, on the inside. (Pause)

Paying attention to the sound of your breath, it's almost magical. You're whole body is alive and feels so good! You know this breath is very special. It's part of the energy that flows in and out of us and by working with our whole body, it keeps us feeling so good inside and out. Allow the breath to fill up your whole body now and enjoy as the energy goes into each and every cell, each and every muscle of your body. Imagine that your happy breathe is bringing a big beautiful smile to every place in your body. Does that feel good? It feels good to me! Try to spend a little each day just imagining this. You'll be really amazed at how good it will make you feel all over.

Now when you're ready, you can open your eyes and give your body a big stretch. You've done a wonderful job and I can just imagine all that happiness you've spread everywhere in your body. I'm really proud of you for your meditation today!"

Nature Guided Imagery Scripts

Nature Guided Imagery Scripts:

135 Guided Visualization Scripts Jaime Wishstone, Transform your coaching sessions with the power of guided visualization 135 Guided Visualization Scripts is the ultimate collection of ready to use scripts designed for coaches therapists meditation teachers and mindfulness practitioners who want to help their clients achieve success confidence emotional healing and personal growth These expertly crafted visualization exercises will help your clients reprogram their subconscious mind align their energy with their goals and manifest profound positive change Whether you work with clients on career success wealth manifestation emotional well being or personal transformation this book provides a structured framework to enhance your sessions and deepen your impact What's Inside Success Manifestation Help clients visualize their ideal life overcome self doubt and activate the Law of Attraction Business Career Growth Guide professionals in manifesting career success attracting clients and achieving business breakthroughs Wealth Abundance Support clients in shifting their money mindset attracting financial prosperity and removing abundance blocks Love Relationships Help clients strengthen self love heal emotional wounds and attract meaningful relationships Health Well Being Guide clients through stress reduction healing visualizations and energy boosting techniques Confidence Personal Growth Use visualization to build self esteem resilience and unstoppable motivation Creativity Innovation Assist clients in unlocking their creative potential and overcoming mental blocks Athletic Performance Excellence Support athletes and performers in enhancing focus endurance and peak performance Productivity Time Mastery Help clients manage time effectively boost productivity and maintain work life balance Spiritual Mindful Living Deepen clients meditation practice enhance intuition and connect with their higher self Why Coaches and Practitioners Love This Book Done for You Scripts Save time with ready made visualization exercises you can use in coaching therapy or group sessions Versatile Easy to Use Suitable for one on one coaching workshops corporate training wellness retreats and online programs Proven Techniques Uses scientifically backed mental imagery methods to help clients achieve real results Enhance Your Practice Elevate your coaching sessions with guided visualizations that create deep and lasting transformation Whether you're a life coach business coach therapist meditation instructor or holistic practitioner these 135 powerful guided visualization scripts will become an invaluable tool in helping your clients overcome challenges achieve their goals and transform their lives Start using these visualization scripts today and take your coaching to the next level

One Health: The Well-being Impacts of Human-nature Relationships Eric Brymer, Elizabeth Louise Freeman, Miles Richardson, 2019-11-07 In recent years there has been a growing body of evidence from fields such as public health architecture ecology landscape forestry psychology sport science psychiatry geography suggesting that nature enhances psychological health and wellbeing Physical activity in the presence of nature feelings of connection to nature engagement with nature specific environmental features e.g therapeutic water and trees and images of real and virtual nature have all been posited as important wellbeing facilitators Thus the association between natural environments and health outcomes

might be more complex than initially understood Pritchard Richardson Sheffield Karmanov Freeman Akhurst 2015 in the development of wellbeing and health outcomes Furthermore traditional theoretical notions such as Biophilia topophilia restoration theories and stress reduction theories typically used to interpret findings are also being critiqued Often one of the main barriers for practitioners is the vast array of theories that claim to effectively explain research findings but that tend to be only partially relevant e g for Physical activity or restoration focus on the characteristics of the person e g nature relatedness and only some features of the landscape e g therapeutic landscapes This special edition therefore brings together cutting edge ideas and research from a wide set of disciplines with the purpose of exploring interdisciplinary or trans disciplinary approaches to understanding the psychological health and wellbeing benefits of human nature interactions

Psychosocial Occupational Therapy - E-BOOK Nancy Carson, 2024-12-11 Develop the psychosocial skills to treat and address the mental health needs of clients in all practice settings Psychosocial Occupational Therapy Second Edition uses evidence based models to demonstrate effective occupational therapy for clients diagnosed with mental health conditions Clearly and logically organized the book begins with theories and concepts and follows with in depth coverage of OT interventions in both individual and group contexts Case studies and models show how to apply the fourth edition of the Occupational Therapy Practice Framework OTPF in selecting treatment strategies UPDATED AOTA s Occupational Therapy Practice Framework 4th Edition and current OT practice are reflected throughout the book to ensure alignment with the latest OT guidelines for education and practice NEW Complementary and Integrative Health chapter provides an overview of complementary approaches that have expanded in use within health care and includes examples of how to effectively incorporate them into OT treatment UNIQUE At least two cases studies in each clinical chapter show how to apply the Occupational Therapy Practice Framework OTPF in determining treatment options and one or more conceptual models address the psychosocial needs of clients NEW Feeding and Eating Disorders chapter offers more in depth information on eating disorders included in the DSM 5 along with the OT s role in treatment NEW Enhanced ebook version included with every new print purchase allows access to all the text figures and references with the ability to search customize content make notes and highlights and have content read aloud Using the Occupational Therapy Practice Framework chapter describes how to apply the 4th edition of the OTPF to the practice of occupational therapy Balanced approach to psychosocial occupational therapy includes thorough coverage of primary diagnoses as well as occupational and psychosocial theories models and approaches Emphasis on clinical reasoning skills provides insights on how to select treatment strategies based on the conceptual theories and models presented in the earlier chapters the information on diagnoses also references the DSM 5 A focus on psychosocial skills makes it easier to adjust the method of approaching a client the nature of the therapeutic relationship and the direction and eventual outcomes of intervention regardless of the setting or the primary diagnosis Coverage of therapeutic interaction skills and group process skills shows how to provide treatment in both
