

Makerere Masters Admissions 2015 2016

Mark Steyvers

Makerere Masters Admissions 2015 2016:

Intra-Africa Student Mobility in Higher Education Chika Trevor Sehoole, Jenny J. Lee, 2022-01-01 This book examines student mobility within Africa International student mobility is among the central activities of higher education internationalization As the number of international students increase so do the destinations in both number and geographic diversity Historically international student mobility has followed South North and North North patterns However recent literature show the growth in North South and South South patterns of student mobility There has also been a rise in regional mobility In what is referred to in the book as intra Africa mobility the books explores and analyzes the patterns of intra Africa mobility based on seven African countries South Africa Kenya Uganda Nigeria Ghana Senegal and Egypt The editors and contributors address three central research questions Why did the students choose the country they are studying in Why did they choose the institution they are studying in What are their academic and social experiences in these countries and their respective institutions This book is the first comprehensive exploration of intra Africa student mobility in a field that traditionally centers on the Global North Supporting Entrepreneurship and Innovation Janet Crum, Samantha Schmehl Hines, 2019-04-29 Libraries have recently begun doing more to support entrepreneurship and innovation within their communities This volume explores how this has come about looking at libraries from across North America Europe and Africa and helps position readers to better understand what is happening and how this can be brought to further institutions

Mathematical Analysis, Differential Equations And Applications Panos M Pardalos, Themistocles M Rassias, 2024-07-26 This comprehensive volume presents essential mathematical results devoted to topics of mathematical analysis differential equations and their various applications It focuses on differential operators Wardowski maps low oscillation functions Galois and Pataki connections Hardy type inequalities to name just a few Effort has been made for this unique title to have an interdisciplinary flavor and features several applications such as in tomography elastic scattering fluid mechanics etc This work could serve as a useful reference text to benefit professionals academics and graduate students working in theoretical computer science computer mathematics and general applied mathematics Administrator and Scholar David J. Bakibinga, 2022-06-17 The autobiography deals with my early life from birth up to my first graduation from Makerere University followed by coverage on my grandparents and parents This is followed by a broad review of my experience abroad covering 13 years in the United Kingdom and Nigeria in the capacities of a student lecturer author and administrator The next chapter deals with the period after my return to Uganda principally settling down teaching at Makerere University serving as Secretary of the Uganda Law Society and working as Commissioner at the Uganda Revenue Authority The following chapter focuses largely on my administrative roles at Makerere University The next chapter is basically a synopsis of my published books This is followed by an account of my work with Busoga Diocese and the Uganda National Academy of Sciences Finally is a brief on my immediate family *Artificial Intelligence (AI) and Finance*

Bahaaeddin A. M. Alareeni, Islam Elgedawy, 2023-08-26 Artificial intelligence AI has the potential to significantly improve efficiency reduce costs and increase the speed and accuracy of financial decision making making it an increasingly important tool for financial professionals One way that AI can improve efficiency in finance is by automating tasks and processes that are time consuming and repetitive for humans For example AI algorithms can be used to analyze and process large amounts of data such as financial statements and market data in a fraction of the time that it would take a human to do so This can allow financial professionals to focus on higher value tasks such as interpreting data and making strategic decisions rather than being bogged down by mundane tasks AI can also reduce costs in finance by increasing automation and eliminating the need for certain tasks to be performed manually This can result in cost savings for financial institutions which can then be passed on to customers in the form of lower fees or better services AI can be used to identify unusual patterns of activity that may indicate fraudulent behavior This can help financial institutions reduce losses from fraud and improve customer security AI powered chatbots and virtual assistants can help financial institutions provide faster more efficient customer service particularly when it comes to answering common questions and handling routine tasks Some financial institutions are using AI to analyze market data and make trades in real time AI powered trading algorithms can potentially make faster and more accurate trading decisions than humans In terms of speed and accuracy AI algorithms can analyze data and make decisions much faster than humans and can do so with a high degree of accuracy This can be particularly useful in fast moving financial markets where quick and accurate decision making can be the difference between success and failure This book highlights how AI in finance can improve efficiency reduce costs and increase the speed and accuracy of financial decision making Moreover the book also focuses on how to ensure the responsible and ethical use of AI in finance This book is a valuable resource for students scholars academicians researchers professionals executives government agencies and policymakers interested in exploring the role of artificial intelligence AI in finance Its goal is to provide a comprehensive overview of the latest research and knowledge in this area and to stimulate further inquiry and exploration

Understanding and mitigating cyberfraud in Africa Oluwatoyin E. Akinbowale, Mariann P. Mashigo, Mulatu F. Zerihun, 2024-06-30 The book covers the overview of cyberfraud and the associated global statistics It demonstrates practicable techniques that financial institutions can employ to make effective decisions geared towards cyberfraud mitigation Furthermore the book contains some emerging technologies such as information and communication technologies ICT forensic accounting big data technologies tools and analytics employed in fraud mitigation In addition it highlights the implementation of some techniques such as the fuzzy analytical hierarchy process FAHP and system thinking approach to address information and security challenges The book combines a case study empirical findings a systematic literature review and theoretical and conceptual concepts to provide practicable solutions to mitigate cyberfraud The major contributions of this book include the demonstration of digital and emerging techniques such as forensic accounting for

cyber fraud mitigation It also provides in depth statistics about cyber fraud its causes its threat actors practicable mitigation solutions and the application of a theoretical framework for fraud profiling and mitigation

Parliamentary Debates (Hansard). Great Britain. Parliament. House of Commons,1938 Contains the 4th session of the 28th Parliament through the session of the Parliament

Handbook of Research on Mixed Methods Research in Information Science Ngulube, Patrick,2021-11-26 Mixed methods research is becoming prevalent in many fields yet little has been done to elevate mixed methods research in information science A comprehensive picture of information science and its problems is needed to further understand and address the issues associated with it as well as how mixed methods research can be adapted and used The Handbook of Research on Mixed Methods Research in Information Science discusses the quality of mixed methods studies and methodological transparency sampling in mixed methods research and the application of theory in mixed methods research throughout various contexts Covering topics such as the issues and potential directions for further research in mixed methods this comprehensive major reference work is ideal for researchers policymakers academicians librarians practitioners instructors and students
