

Man's Place in Nature

Thomas H. Huxley

Known as "Darwin's Bulldog" for his impassioned defense of evolutionary theory, Thomas Huxley published this, his most famous book, just a few years after Darwin's *The Origin of Species*. Unlike *Origin*, this book focuses on human ancestry and offers a concise, nontechnical survey of the state of mid-nineteenth-century knowledge about primate and human paleontology and ethology.

Man's Place in Nature concurs with Darwin's assertion of the absence of a physiologic and psychic structural line of demarcation between humans and apes. Huxley ventures further than Darwin, however, by making the first attempt to apply the principles of evolution directly to the human race (an issue that Darwin skirted). Despite Huxley's acknowledgements of the wide gulf represented by the human capacity for rational speech and language, some Victorian readers were scandalized by the application of Darwinian theory to humans and by Huxley's evidence of the fundamental similarities between the human brain and the ape brain.

A landmark of scientific progress, this immensely readable book reflects the stylistic gifts that made its author a popular public speaker.

Finally available a high quality book of the original classic edition of *Man's Place in Nature and Other Essays* It was previously published by other bona fide publishers and is now after many years back in print This is a new and freshly published edition of this culturally important work by Thomas Henry Huxley which is now at last again available to you Get the PDF and EPUB NOW as well Included in your purchase you have *Man's Place in Nature and Other Essays* in EPUB AND PDF format to read on any tablet eReader desktop laptop or smartphone simultaneous Get it NOW Enjoy this classic work today These selected paragraphs distill the contents and give you a quick look inside *Man's Place in Nature and Other Essays* Look inside the book Astronomy geology biology anthropology historical criticism have at different periods raised alarm in the minds of those who dread a materialistic view of man's nature and with the very best intentions they have tried to fight the supposed enemy on his own ground eagerly welcoming for instance every sign of disagreement between Darwinians and Lamarckians or every dispute between different schools of historical critics as if the spiritual well being of mankind were bound up with the scientific beliefs of the seventeenth or even earlier century as if e.g. it made all the difference in man's spiritual nature whether he was made directly out of inorganic dust or slowly ascended from lower organic forms But there is no necessity for any such scheme and Professor Huxley himself who is commonly spoken of by half informed people as if he were a philosophic materialist was really nothing of the kind for although like Newton fully imbued with the mechanical doctrine and of course far better informed concerning the biological departments of nature and the discoveries which have in the last century been made and though he rightly regarded it as his mission to make the scientific point of view clear to his benighted contemporaries and was full of enthusiasm for the facts on which materialists take their stand he saw clearly that these alone were insufficient for a philosophy Pg 10 After a careful

survey of the literature of the subject extant in his time our author arrives at the conclusion that his Pygmie is identical neither with the Orangs of Tulpius and Bontius nor with the Quoiias Morrou of Dapper or rather of Tulpius the Barris of d Arcos nor with the Pongo of Battell but that it is a species of ape probably identical with the Pygmies of the Ancients and says Tyson though it does so much resemble a Man in many of its parts more than any of the ape kind or any other animal in the world that I know of yet by no means do I look upon it as the product of a mixt generation tis a Brute Animal sui generis and a particular species of Ape About Thomas Henry Huxley the Author Since Lord Brougham assailed Dr Young the world has seen no such specimen of the insolence of a shallow pretender to a Master in Science as this remarkable production in which one of the most exact of observers most cautious of reasoners and most candid of expositors of this or any other age is held up to scorn as a flighty person who endeavours to prop up his utterly rotten fabric of guess and speculation and whose mode of dealing with nature is reprobated as utterly dishonourable to Natural Science Huxley s courses for students were so much narrower than the man himself that many were bewildered by the contrast The teaching of zoology by use of selected animal types has come in for much criticism 91 Looking back in 1914 to his time as a student Sir Arthur Shipley said Although Darwin s later works all dealt with living organisms yet our obsession was with the dead with bodies preserved and cut into the most refined slices
