June Setswana Paper 2:

The Social and Political History of Southern Africa's Languages Tomasz Kamusella, Finex Ndhlovu, 2017-11-21 This book is the first to offer an interdisciplinary and comprehensive reference work on the often marginalised languages of southern Africa. The authors analyse a range of different concepts and questions including language and sociality, social and political history, multilingual government and educational policies. In doing so they present significant original research ensuring that the work will remain a key reference point for the subject. This ambitious and wide-ranging edited collection will appeal to students and scholars of southern African languages, sociolinguistics, history and politics. **Foreign and Commonwealth Office, Accessions to the Library, May 1971-June 1977: Author catalogue** Great Britain. Foreign and Commonwealth Office. Library, Great Britain. Ministry of Overseas Development. Including fascinating new work and new often challenging data from Botswana, Chad, Ghana, Kenya, Nigeria and South Africa, this collection looks at some traditional uses of language in relation to the gender of its speakers and the gendered nature of the languages themselves; it also identifies and explores social change in terms of both gender and sexuality as reflected in and constructed by language and discourse. The contributions to this volume are accessibly written and will be of interest to students and established academics working on African sociolinguistics and discourse as well as those whose interest is language, gender and sexuality. **Global Perspectives on Youth Language Practices** Cynthia Groff, Andrea Hollington, Ellen Hurst-Harosh, Nico Nassenstein, Jacomine Nortier, Helma Pasch, Nurenzia Yannuar, 2022-02-07 Most journal articles, edited volumes and monographs on youth language practices deal with one specific variety, one geographical setting or with one specific continent. This volume bridges these different studies and it approaches youth language from a much broader angle. A global framework and a diversity of methodologies enable a wider perspective that gives room to comparisons of youth's manipulations and linguistic agency, transnational communicative practices and language contact scenarios. The research presented addresses structural features of everyday talk and text, youth identity issues related to specific purposes and contexts and sociocultural emphases on ideologies and belonging. Combining insights into sociolinguistic and structural features of youth language, the volume includes case studies from Asia, Indonesia, Australia and Oceania, Arnhem Land, New Ireland, South America, the Amazon, Chile, Argentina, Europe, Germany, Spain and Africa, Uganda, Nigeria, DR Congo, Central African Republic, South Africa. It expands on existing publications and offers a more comparative and global approach without
