## Coffee around the clock

This is the first time that a TFT color display has made an appearance in JURA's compact class. It makes operation using the Rotary Switch very easy and clear. Four speciality coffees can be individually programmed on the start screen, allowing you to prepare your favorite coffee in a flash around the clock. The innovative Aroma<sup>®</sup> grinder makes sure that your long breakfast coffee is just as irresistible as the intense espresso, the classic café crème or the trendy latte macchiato. It grinds the fresh beans at twice the speed yet very gently and makes coffee pleasure an explosion of aromas at any time.

### TFT display with Rotary Selection

JURA's TFT technology has found its way into the compact class. Simply turn the Rotary Switch and a list of speciality coffees appears on the 2.8 inch display. Simply touch the button for coffee that fulfills your wildest dreams. Four products can be individually programmed on the start screen and assigned any name.

### Impiring range of beverages

The IMPRESSA F8 delivers the perfect coffee experience no matter what your preferred beverage. It's the right choice for anyone who enjoys lunge, café crème and espresso but now and then likes to treat themselves to a perfect cappuccino or latte macchiato.

### Aroma<sup>®</sup> grinder now twice as fast

By perfecting the cutting angle inside the grinding cone, the JURA engineers have managed to increase efficiency significantly. As a result, the perfect aroma can now be achieved in all its natural fullness in half the grinding time. So now coffee lovers can enjoy pure and perfect coffee indulgence with less preparation time and less noise. The powder chute for ground coffee can be used for additional coffee varieties, such as a decaffeinated blend.

### Revolutionary fine foam technology

A hot water function for tea and a steam portico function so that milk can be heated automatically for hot chocolate topped with foamed milk is just as much a part of the machine as the innovative cappuccino or latte macchiato system. So you can prepare trend specialties without even having to move the cup. Simply turn the switch and delicate light-air milk foam of the finest quality and consistency will flow into your cup before coffee is added to create your classic cappuccino. Both the coffee and milk spout are height-adjustable on a continuous scale, so you can treat yourself to a great tasting cup of coffee using any standard cup.
