Industrial Software Applications Rainer Geisler, 2015-02-24 This book is written for engineering students and working professionals. Technical professionals are increasingly involved in IT issues such as implementing IT systems, managing them, and taking part in requirements analysis, vendor selection. In this book, the basics of production planning systems (PPS) are covered, as well as their implementation in ERP Systems like SAP. Readers also learn the basics of practical IT management and software creation through detailed real-world examples. The book serves as a full 5 ECTS study module which fits into any engineering curriculum. 150 multiple-choice quizzes, practical exercises, and a text filled with experiential examples make it a convenient choice for self-study and for classroom use.

Structural Equation Modeling Approaches to E-Service Adoption Akgül, Yakup, 2019-04-19 With the modernization of services offered through the internet, many traditional face-to-face services have adopted new e-service phenomena. Especially prevalent among the younger generations, this change in service has promoted many industries to rethink how to best reach their consumers using modern technology. Structural Equation Modeling Approaches to E-Service Adoption is a pivotal reference source that aims to share the latest empirical research findings within technology acceptance, information systems, information technology, human-computer interaction, and management information systems. While highlighting topics such as e-commerce, internet banking, and technology acceptance, this publication explores the understanding of today's e-services in a dynamic and complex environment, as well as the methods within the field of information systems and information technologies. This book is ideally designed for academics, students, managers, and scholars interested in the up-and-coming research surrounding the field of information technology.
