## **Management Economics An Accelerated Approach:**

**Management Economics: An Accelerated Approach** William G. Forgang, Karl W. Einolf, 2015-03-26 Thoroughly classroom tested this text is designed specifically for one semester accelerated and online courses at the upper undergraduate and MBA levels. It is based on the theme that business and personal decisions are made within both micro and macro economic environments. By understanding the environments and their effects on outcomes of decisions, better choices can be made. The text also differs from others in the area because it is less theoretical; it provides a broader perspective for management problem solving and it bridges economics with other business disciplines. Each chapter includes a management decision oriented case study that applies tools of economic analysis. An online instructors manual is available to professors who adopt the text. From the shuttered factories of the Rust Belt to the strip malls of the Sun Belt and almost everywhere in between, America has been transformed by its relentless fixation on low price. This pervasive yet little examined obsession with bargains is arguably the most powerful and devastating market force of our time, having fueled an excess of consumerism that blights our landscapes, escalates personal debt, lowers our standard of living, and even skews our concept of time. Spotlighting the peculiar forces that drove Americans away from quality, durability, and craftsmanship and towards quantity, quantity, and more quantity, Ellen Ruppel Shell traces the rise of the bargain through our current big box profusion to expose the astronomically high cost of cheap. *Financial Accounting in an Economic Context* Jamie Pratt, Michael F.
