 Function* Oliver Holtkemper,2020-10-27 This book analyzes the impact of digitization on management accounting in five
 manufacturing companies It is one of the first in depth empirical studies on the intersection of management accounting and
 digitization The study suggests that there are two archetypes of digitization of the management accounting function The first

archetype emphasizes top down driven changes that aim to enhance efficiency such as conducting tasks with a higher degree of automation in a leaner structure with fewer resources The second archetype is strongly driven and initiated by employees in the management accounting function bottom up The focus is on improving the use of data by applying innovative analytics methods integrating additional sources of data and benefiting from new technologies like artificial intelligence The results of the study also indicate that digitization of the management accounting function is mostly in line with the overall company strategy **Harvard Business School Core Collection** Baker Library,1999 Forthcoming Books Rose Army,2003-04
