July 1914 Countdown To War:

7/1/1914 Sean McMeekin, 2013-04-09 Focusing on the weeks preceding the beginning of World War I traces the efforts of a group of statesmen who used the assassination of Archduke Ferdinand which was largely ignored to trigger the outbreak of war **July 1914** Sean McMeekin, 2014 The outbreak of the First World War was a drama never surpassed One hundred

years later the characters still seem larger than life Archduke Franz Ferdinand brooding heir to the Habsburg throne the fanatical Bosnian Serb assassins who plot to murder him Conrad and Berchtold the Austrians who exploit the outrage Kaiser Wilhelm and Bethmann Hollweg backing up the Austrians Sazonov Russian Foreign Minister trying to live down a reputation for cowardice Poincaré and Paléologue two French statesmen who urge on the Russians and not least Winston Churchill who alone among Cabinet officials in London perceives the seriousness of the situation in time to take action July 1914 tells the story of Europe's countdown to war through the eyes of these men between the bloody opening act on 28 June 1914 and Britain's final plunge on 4 August which turned a European conflict into a world war The outbreak of war was no accident of fate Individual statesmen pursuing real objectives conjured up the conflict in some cases by conscious intention While some sought honourably to defuse tensions others all but oozed with malice as they rigged the decks for war Dramatic inevitably tense and almost forensically observed Sean McMeekin's unique book retells the story of that cataclysmic month making clear as never before who was responsible for the catastrophe You will never think the same way again about the origins of the First World War *July 1914*, 1975 **Railways in the First World War, Volume 1** Andrea Giuntini, Henry

Jacolin, 2025-10-27 This book the first in a two volume work resulting from a 2018 conference organised by the International Railway History Association IRHA examines the relationship between the railways and the First World War from a global theoretical methodological and geographical perspective Although World War I 1914-1918 has been studied extensively from virtually every angle the question of the railways has not been the subject of robust historical interest despite their crucial role in every respect and at every stage The war forced the railways to adopt more efficient techniques more quickly than they would have done in peacetime to the extent where military operations would not have been possible without their massive and multifaceted help This collection of essays brings together specialists in the field from a broad range of disciplines and backgrounds to demonstrate how this topic is integral to understanding the developments of European and world history throughout the 1910s and 1920s Railways in the First World War will be a useful tool for students scholars and non specialist readers interested in the history of transport the history of the First World War and World history

Contesting the Origins of the First World War Troy Paddock, 2019-07-31 Contesting the Origins of the First World War challenges the Anglophone emphasis on Germany as bearing the primary responsibility in causing the conflict and instead builds upon new perspectives to reconsider the roles of the other Great Powers Using the work of Terrance Zuber Sean McMeekin and Stefan Schmidt as building blocks this book reassesses the origins of the First World War and offers an

explanation as to why this reassessment did not come about earlier Troy R E Paddock argues that historians need to redraw the historiographical map that has charted the origins of the war His analysis creates a more balanced view of German actions by also noting the actions and inaction of other nations Recent works about the roles of the five Great Powers involved in the events leading up to the war are considered and Paddock concludes that Germany does not bear the primary responsibility This book provides a unique historiographical analysis of key texts published on the origins of the First World War and its narrative encourages students to engage with and challenge historical perspectives

The Irish Factor, 1899-1919 Jérôme aan De Wiel, 2008 This book examines strategic and diplomatic issues concerning Ireland at the beginning of the 20th century together with espionage sabotage and propaganda operations of foreign powers trying to manipulate Ireland Focussing on continental European powers such as Austria Hungary France Germany and to a lesser extent Russia the book is based on research in diplomatic and military archives notably in Berlin Brussels Paris and Vienna The research unearthed many unknown documents which in turn produced some unexpected revelations During the Boer War the French envisaged a landing in Ireland to strike at Britain They had also financed the activities of certain Irish nationalists The Germans and the French battled in the United States in order to control the influential Irish American community The comparison of documents found in archives in London and Berlin shows that some British officials let the Easter Rising of 1916 deliberately happen the aim being the decapitation of the Irish republican movement The book also reveals the existence of hitherto relatively unknown characters which played their part in the course of Irish history The correspondence between George Freeman in New York and Professor Theodor Schiemann in Berlin sheds light on Germany's interest in Irish and Irish American republican movements France's diplomatic icons Paul and Jules Cambon became increasingly aware of the Irish world's threat after the signing of the Entente Cordiale in 1904 **July 1914: Soldiers, Statesmen, and the Coming of the Great War** Samuel R.
