Social Work in Health and Aging is the first reference to address this reality by compiling the most current thinking on these
subjects in a single volume With the population of older adults increasing as rapidly as new possibilities for their care
professionals need an accessible source of specialized information about how best to serve the elderly and their families and
they will find this authoritative handbook indispensable In 100 original chapters the most experienced and prominent
gerontological health care scholars in the United States and across the world provide social workers with up to date
knowledge of evidence based practice guidelines for effectively assessing and treating older adults and supporting their
families The contributing authors paint rich portraits of a variety of populations that social workers serve and arenas in
which they practice followed by detailed recommendations of best practices for an array of physical and mental health
conditions Its unprecedented attention to diversity global trends and implications for research government policy and
