Internet Use and Protest in Malaysia and other Authoritarian Regimes Kris Ruijgrok, 2021-04-13 This book investigates the impact of internet use on anti government protesting under authoritarian rule By breaking up the causal chain into various steps it provides a thorough and nuanced understanding of internet's role in different stages of the mobilization process It argues that the impact of internet use on anti governmental protesting differs per step in the mobilization chain and also that the effect depends on both the on and offline repression of the regime as well as on the type of internet that is available While staying far away from any technologically deterministic claims about the internet the book demonstrates that the internet especially plays an important role in the early stages of the mobilization process By exposing citizens to alternative political information online internet users are more likely to become sympathetic towards anti

governmental protest movements
