Medieval Heresy & the Inquisition Arthur Stanley Turberville, 1920 Medieval Heresy and the Inquisition A. S. Turberville, Mauro Liistro, 2014-07-03 The aim of this book is to provide within a short space and primarily for the general reader an account of the heresies of the Middle Ages and of the attitude of the Church towards them The book is therefore a brief essay in the history not only of dogma but inasmuch as it is concerned with the repression of heresy by means of the Inquisition of judicature also The ground covered is the terrain of H C Lea's immense work *A History of the Inquisition of the Middle Ages* but that was published more than thirty years ago and since then much has been written though not indeed much in English on the medieval Inquisition and cognate subjects As the present work has been undertaken in the light of some of these more recent investigations it is hoped that it may be of utility to rather closer students as well as to the general reader as a review of the subject suggested by the writings of Lea's successors both partisans and critics At the same time this book does not profess to be a history even the briefest of the medieval Inquisition Its main concern is with doctrine and for that reason chapters on Averroism and on Wyclifitism and Husitism have been included though they have little bearing on the Inquisition
