Medievalism A Critical History:

Medievalism David Matthews, 2015 An accessibly written survey of the origins and growth of the discipline of medievalism studies The field known as medievalism studies concerns the life of the Middle Ages after the Middle Ages Originating some thirty years ago it examines reinventions and reworkings of the medieval from the Reformation to postmodernity from Bale and Leland to HBO's *Game of Thrones* But what exactly is it An offshoot of medieval studies A version of reception studies Or a new form of cultural studies Can such a diverse field claim coherence Should it be housed in departments of English or History or should it always be interdisciplinary In responding to such questions the author traces the history of medievalism from its earliest appearances in the sixteenth century to the present day across a range of examples drawn from the spheres of literature art architecture music and more He identifies two major modes the grotesque and the romantic and focuses on key phases of the development of medievalism in Europe the Reformation the late eighteenth century and above all the period between 1815 and 1850 which he argues represents the zenith of medievalist cultural production He also contends that the 1840s were medievalism's one moment of canonicity in several European cultures at once After that medievalism became a minority form rarely marked with cultural prestige though always pervasive and influential *Medievalism a Critical History* scrutinises several key categories space time and selfhood and traces the impact of medievalism on each It will be the essential guide to a complex and still evolving field of inquiry David Matthews is Professor of Medieval and Medievalism Studies at the University of Manchester

Medievalism and Reception Dr Ellie Crookes, Ika Willis, Ellie Crookes, 2024-12-03 The relationship between medievalism and reception explored via a rich variety of case studies At the intersection of the twin fields of medievalism and reception studies is the timely and fascinating question of how a contested past is deployed in the context of a conflicted and contradictory present Despite their shared roots and a fundamental orientation towards the entanglement of past and present the term reception is rarely taken up in medievalist scholarship and they have developed along parallel but divergent lines evolving their own emphases problematics sensibilities vocabularies and critical tools This book is the first to reunite these two fields Its introduction and first chapter clearly set out their tangled intellectual and disciplinary histories The ten essays that follow reflect upon the relationship between medievalism and reception in theory and in practice through thematically temporally and geographically expansive case studies engaging with theories of translation postcolonialism fan studies persona studies and Indigenous studies Individual topics examined include the cultural impact of Robin Hood the Tulsa race massacre the crusades in the nineteenth century later representations of Chaucer's works Victorian representations of Anne Boleyn and media such as *Star Wars* and *Game of Thrones* As a whole this collection models and demonstrates the value of a new and self-aware approach to medievalism enriched by a conscious and critical redeployment of reception theories and methodologies
