Lykke, 2022-11-22 Live Die Buy Eat These words represent a chain of events which today is disconnected In the past few years controversies around meat have arisen around industrialization and globalization of meat production often pivoting around health environmental issues and animal welfare Although meat increasingly figures as a problem most consumers knowledge of animal husbandry and meat production is more absent than ever Tracing a historical process of alienation along three distinct axes the authors show how the animal origin of meat is covered up rationalized forgotten excused neglected and denied How is meat produced today and where How do we consume meat and how have our consumption habits changed Why have these changes occurred and what are the social and cultural consequences of these changes Using Norway as a case study this book examines the dramatic changes in meat production and consumption over the last 150 years With a wide range of historical sources together with interviews and observation at farms slaughterhouses and production units as well as analyses of contemporary texts and digital sources Live Die Buy Eat explores the transformation of animal husbandry meat production and consumption together with its cultural consequences It will appeal to scholars of anthropology sociology cultural studies geography and history with an interest in food agriculture environment and culture **Clay, Robinson & Company's Live Stock Report**, 1919

Pig Brett Mizelle, 2012-01-01 Known as much for their pink curly tails and pudgy snouts as their low brow choice of diet and habitat pigs are prevalent in popular culture from the Three Little Pigs to Miss Piggy to Babe Today there are more than one billion pigs on the planet and there are countless representations of pigs and piggishness throughout the world's cultures In *Pig* Brett Mizelle provides a richly illustrated and compelling look at the long complicated relationship between humans and these highly intelligent sociable animals Mizelle traces the natural and cultural history of the pig focusing on the contradictions between our imaginative representation of pigs and the real world truth of the ways in which pigs are prized for their meat used as subjects in medical research and killed in order to make hundreds of consumer products *Pig* begins with the evolution of the suidae animals that were domesticated in multiple regions 9 000 years ago and points toward a future where pigs and humans are even more closely intertwined as a result of biomedical breakthroughs *Pig* both examines the widespread art entertainment and literature that imagines human kinship with pigs and the development of modern industrial pork production In charting how humans have shaped the pig and how the pig has shaped us Mizelle focuses on the unresolved contradictions between the fiction and the reality of our relations with pigs Board of Inquiry Into Cost of Living Canada.
