Local Candidate Guide:

A Candidate's Guide, 2003 *A Voter's Guide to Federal Elections*, 2010 **Running, Winning, Serving** Craig Turner, 2017-07-21 When you're running for local office for the first time there are plenty of mistakes you can make. The good thing is that you're not the first person ever to face the challenges of running for office even though sometimes it might seem like it. In this book Craig W. Turner collects stories, advice, warnings, and best practices from local candidates from around the country who have been there and done that. They've already seen what you're about to see and they've generously shared their experiences for the benefit of you and other first-time candidates for local office. This is no poli sci class. This is in the trenches, life experience. Everyone interviewed for this book as part of The Campaign Coach Podcast has run and won at least one election. Some are now retired, some have moved on to higher office, and some are still serving in the capacity we discussed in their interview. In these pages you will find insights that no guidebook or online course can give you; they will inspire you and scare you and motivate you and smack you in the face with a reality check. But they will also make you a stronger candidate. Whether it's talking with voters, fundraising, understanding local government policy, promoting your candidacy, or even knowing how to best serve your community, learning from these people's experiences and avoiding mistakes that they've already made for you will give you a leg up on any opponent. *Indiana Candidate Guide*, 2012

The Candidates' and Agents' Guide in Contested Elections Henry Charles Richard, 1904 *The Candidates' and Agents' Guide in Contested Elections: ...* Henry Charles Richards, 1893 *General Election Guide*, 1983 Linda Anderson, Bob Bright, Jon Kimber, 1983 *Kansas Voter's Guide*, 1970 *Applied Research Methods in Public and Nonprofit Organizations* Mitchell Brown, Kathleen Hale, 2014-08-13 A complete guide to applied research featuring original data and detailed case studies. *Applied Research Methods in Public and Nonprofit Organizations* takes an integrative approach to applied research, emphasizing design, data collection, and analysis. Common case studies across chapters illustrate the everyday nature of research, and practical exercises reinforce concepts across all sections of the text. The book includes forms and formats for data collection and analysis, plus writing excerpts that demonstrate results reporting and presentation. The accompanying instructor's guide features assignments, discussion questions, and exercises referenced in the book, and the authors' own data sets are available for use online. Conducting research, analyzing results, and synthesizing the findings for key stakeholders is fundamental to the study and practice of public and nonprofit management. Aligned with management curriculum for both sectors, the book focuses on the common ground these organizations share when it comes to planning, conducting, and using research in day-to-day professional activities. The original research examples presented are in the context of this shared commonality, including resource acquisition, evaluative processes, and future planning through the lens of common social policy issues facing leaders today. Topics include: The research process and applied research designs; Applied research questions and literature; Data collection in the field and survey research; Data analysis, writing, and presentation. The examples

highlight intergovernmental institutions in which public service occurs and provide expanded reach to nonprofit organizations and the networked collaborations that make up a significant portion of today's public service. For students and practitioners of public administration, public policy, and nonprofit management, *Applied Research Methods in Public and Nonprofit Organizations* provides a comprehensive reference to this critical skillset.
