

Medical School Essay One

How will your life experience thus far add a unique dimension to our entering medical school class? What will a medical degree mean to you or your family?

"Lastly, I would like to acknowledge the assistance of my colleagues and our industrial partners at Siemens and Radionics who were instrumental in the completion of this research project," I said concluding my presentation at the annual fall meeting of the Biomedical Engineering Society last month in October. Although I felt nervous before my first oral presentation at a professional conference, afterwards I felt an overwhelming sense of joy and accomplishment. All the hard work and late nights in the lab had finally paid off.

In my research, I am involved with the interventional MRI project at [major hospital] where MR images are used to guide and monitor minimally invasive therapies such as localized biopsy and thermal ablation of cancerous tumors. My research topic is on the spatial calibration procedure and the interactive scan plane localization for device tracking in a low-field open MR imager. In the course of my research, I developed a unique and accurate method of defining spatial coordinates inside the imaging volume of the open MR imager, which led to the publication and presentation of two separate abstracts at two different professional conferences in Sydney, Australia and Cleveland, Ohio.

My strong scientific research background and my clear understanding of the basic concepts of scientific inquiry and method will help me become a good physician. Having learned the technical aspects of biomedical science for the last six years, I am anxious to start learning about the clinical aspects of biomedical science. To me, a medical degree does not merely mean that I have survived four rigorous years of medical school and have something tangible to show my family. To me a medical degree has much more significance. A medical degree means that I can make a daily contribution to society by utilizing my education to help others in need.

Perhaps even more important to my academic accomplishments are my experiences outside the classroom. Being a minority student, I understand the importance of diversity. As an active member of the Asian-American Student Association at [major university], I helped to promote ethnic diversity and cultural awareness on campus. Our Chinese Cultural Committee sponsored the Chinese New Year event on campus to promote cultural awareness at the school's international fair. Our group featured not only traditional Chinese food but also a Chinese fashion show and a demonstration of Chinese kung fu. Furthermore, our association organized several volunteering trips to serve food to the homeless at a local soup kitchen in Nashville.

In graduate school at [major university], I continued with my involvement in diversity-related issues by serving as a student representative on the Faculty Senate Minority Affairs Committee as a part of my duty as a
