Improvements in health services require continual attention and dedication to ensure proper care and treatment for citizens. To support this endeavor, professionals rely more and more on the application of information systems and technologies to promote the overall quality of modern healthcare. **Maximizing Healthcare Delivery and Management through Technology Integration** is an authoritative reference source for the latest scholarly research on the integration of ICT within the health services sector. Featuring comprehensive coverage on a range of topics from technical and non-technical perspectives, this book is an essential reference source for IT specialists, professionals, managers, and students seeking current research on the growing relationship between technology and healthcare.

Waste to Value Innovations Motaung Tshwafo

Elias, 2025-03-17. This book highlights a need to engage research and innovation for energy production from waste, given the challenges of insufficient electricity in most developing countries. It also highlights current policies and regulations to fast-track development of new technologies for renewable energy in developing countries. The chapters are tailored to support academics, industries, and investors with competent approaches for starting groundbreaking projects. Investors will find the book relevant as it gives bearing on the new waste streams and forecast in Africa and the world. The knowledge in it gives channels to the world's competent practical solutions in renewable energy. All the gaps related to waste and energy are well identified in South Africa and other selected countries.
