Capturing Social and Behavioral Domains and Measures in Electronic Health Records Institute of Medicine, Board on Population Health and Public Health Practice, Committee on the Recommended Social and Behavioral Domains and Measures for Electronic Health Records, 2015-01-08 Determinants of health like physical activity levels and living conditions have traditionally been the concern of public health and have not been linked closely to clinical practice. However, if standardized social and behavioral data can be incorporated into patient electronic health records (EHRs), those data can provide crucial information about factors that influence health and the effectiveness of treatment. Such information is useful for diagnosis, treatment choices, policy, health care system design, and innovations to improve health outcomes and reduce health care costs. **Capturing Social and Behavioral Domains and Measures in Electronic Health Records Phase 2** identifies domains and measures that capture the social determinants of health to inform the development of recommendations for the meaningful use of EHRs. This report is the second part of a two-part study. The Phase 1 report identified 17 domains for inclusion in EHRs. This report pinpoints 12 measures related to 11 of the initial domains and considers the implications of incorporating them into all EHRs. This book includes three chapters from the Phase 1 report in addition to the new Phase 2 material. Standardized use of EHRs that include social and behavioral domains could provide better patient care, improve population health, and enable more informative research. The recommendations of **Capturing Social and Behavioral Domains and Measures in Electronic Health Records Phase 2** will provide valuable information on which to base problem identification, clinical diagnoses, patient treatment outcomes assessment, and population health measurement.

Childhood Sexuality and AIDS Education Deevia Bhana, 2015-08-27 Primary schoolchildren are frequently shielded from education on sexuality and sexually transmitted diseases in an effort to protect their innocence. In countries like South Africa, where AIDS is particularly widespread, it is especially important to address prevention with younger boys and girls as active social agents with the capacity to engage with AIDS as gendered and sexual beings. This volume addresses the question of children's understanding of AIDS not simply in terms of their dependence but as active participants in the interpretation of their social worlds. The volume draws on an interview and ethnographic-based study of young children in two socially diverse South African primary schools, as well as interviews conducted with teachers and mothers of young children. It shows how adults sustain the production of childhood sexual innocence and the importance of scaling up programs in AIDS intervention, gender, and sexuality. It makes significant contributions to the global debate around childhood sexualities, gender, and AIDS education.

The Global Testing Culture William C. Smith, 2016-01-04 The past thirty years have seen a rapid expansion of testing, exposing students worldwide to tests that are now more than ever standardized and linked to high-stakes outcomes. The use of testing as a policy tool has been legitimized within international educational development to measure education quality in

the vast majority of countries worldwide The embedded nature and normative power of high stakes standardized testing across national contexts can be understood as a global testing culture The global testing culture permeates all aspects of education from financing to parental involvement to teacher and student beliefs and practices The reinforcing nature of the global testing culture leads to an environment where testing becomes synonymous with accountability which becomes synonymous with education quality Underlying the global testing culture is a set of values identified from the increasing literature on world culture These include education as a human right academic intelligence faith in science decentralization and neoliberalism Each of these values highlights different aspects of the dialogue in support of high stakes standardized testing The wide approval of these values and their ability to legitimate various aspects of high stakes testing reinforces the taken for granted notion that such tests are effective and appropriate education practices However a large body of literature emphasizes the negative unintended consequences teaching to the test reshaping the testing pool the inequitable distribution of school resources and teachers attention and reconstructing the role of the student teacher and parent commonly found when standardized census based tests are combined with high stakes outcomes for educators or students This book problematizes this culture by providing critical perspectives that challenge the assumptions of the culture and describe how the culture manifests in national contexts The volume makes it clear that testing per se is not the problem Instead it is how tests are administered used or misused and linked to accountability that provide the global testing culture with its powerful ability to shape schools and society and lead to its unintended undesirable consequences

Sexuality Education that Prioritizes Sexual Well-Being: Initiatives and Impact Jacqueline Hendriks, Allison Carter ,Jessie Ford,2025-12-01 All children and young people should receive comprehensive sexuality education from a variety of sources that empowers them to develop a positive self identity and provides them with the tools necessary to form healthy relationships and to manage their own sexuality and sexual health The positive impact such education has for the health and well being of individuals communities and societies has been extensively documented in academic literature Despite the strong evidence base the actual provision of sexuality education can vary markedly across settings and countries and may often focus on biology the prevention of violence diseases or pregnancy and the use of fear based or sex negative messaging Contemporary international guidelines and extensive empirical research strongly encourage strengths based models that are sex positive and empower young people to develop healthy relationships and to learn about pleasure and sexual well being Such programs are often ground in human rights and ethical frameworks In reality specific examples of such programs and guidance about implementation are not easily accessible Research and evaluation data may also be limited or not widely shared The intention of this Research Topic is to showcase a variety of evidence based initiatives that prioritize and celebrate sexual well being through education The impact of such programs shall also be explored alongside broader discussions about implementation sustainability replication and scaling We are keen to spotlight initiatives that address a specific sexuality

education topic alongside more extensive programs A variety of age groups preK 16 and educational settings e g home school community online are welcome Critically a key attribute of any showcased initiative is that it seeks to provide education via sex positive approaches that address sexual well being sex positivity and or pleasure This Research Topic welcomes research that includes but is not limited to the following scientifically rigorous evaluations of educational interventions empirical examinations of best practice in educational design meta analyses of educational practice innovation or pedagogies barriers and enablers to program implementation sustainability replication and or scale up cross cultural and or cross national studies study protocols Potential topics of interest include but are not limited to Inclusion of young people in educational design How pleasure discourse is contextualized within sexuality education curricula Human rights Implementation challenges Ethical issues Adolescents views on sex and pleasure education The role of digital technology We especially welcome submissions from young people people from key populations and community based organizations We request that submissions adhere to the principles of respectful and stigma free language
