The Politics and Perils of Space Exploration Linda Dawson, 2020-11-27 This book examines the U S space program s triumphs and failures in order to assess what constitutes a successful space policy Using NASA and the space industry s complex history as a guide it draws global lessons about space missions and the trends we can expect from different nations in the next decade and beyond Space exploration has become increasingly dependent on cooperation between countries as well as the involvement of private enterprise This book thus addresses issues such as Given their tenuous history can rival countries work together Can private enterprise fill NASA s shoes and provide the same expertise and safety standards Written by a former NASA Aerodynamics Officer at Houston Mission Control working on the Space Shuttle program the second edition of this book provides updated information on U S space policy including the new strategy to return to the Moon prior to traveling to Mars Additionally it takes a look at the formation of the Space Force as a military unit as well as the latest developments in private industry Overall it is a thought provoking resource for both space industry professionals and space enthusiasts

Bird versus Bulldozer Audrey L Mayer, 2021-03-09 An examination of the struggle to conserve biodiversity in urban regions told through the story of the threatened coastal California gnatcatcher The story of the rare coastal California gnatcatcher is a parable for understanding the larger ongoing struggle to conserve biodiversity in regions confronted with intensifying urban development Because this gnatcatcher depends on vanishing coastal sage scrub in Southern California it has been regarded as a flagship species for biodiversity protection since the early 1990s But the uncertainty of the gnatcatcher s taxonomic classification and whether it can be counted as a listable unit under the Endangered Species Act has provoked contentious debate among activists scientists urban developers and policy makers Synthesizing insights from ecology environmental history public policy analysis and urban planning as she tracks these debates over the course of the past twenty five years Audrey L Mayer presents an ultimately optimistic take on the importance of much neglected regional conservation planning strategies to create sustainable urban landscapes that benefit humans and wildlife alike

Proceedings of the International Conference Theory and Applications in the Knowledge Economy TAKE 2017 Blazenka Knezevic, Gaby Neumann , 2017-07-08 Foreword A famous Portuguese Poet once said around one hundred years ago before I was born all the words that should save the Humanity had already been written the only thing that was missing was to save Humanity Fast forward to the 21st century services led and knowledge based economy and we have myriads of theoretical study about the decisive assets namely intangibles Those analysis are made in several perspectives namely Human Resources Knowledge Management Intellectual Capital and also many sectorial perspectives like Trade Economics Logistics Social Policy etc However today the question about the applicability of all these studies remains unsolved So it like many of the words that will save the Knowledge Economy have already been written all we need is to save the Knowledge Economy Or is it not The idea behind TAKE Conference was to provide a multidisciplinary forum in which

those multiple perspectives will come together We believe it is a fruitful operation and we intend to continue the exercise in the future The problem of the relation between theory and practice in the knowledge economy is getting more important and not less important with the development of the BRICS and other nations TAKE main question will be one of the problems of the 21st century Following the promising start of TAKE 2016 in Aveiro Portugal TAKE 2017 was organized by the Faculty of Economics of Zagreb University around Prof Blazenka Knezevic I would like to thank her and her team for the massive effort in putting TAKE 2017 together It will be a very nice and memorable conference I would like also to thank the 5 keynotes the special sessions and workshop organizes the authors of the 60 papers and 5 posters the stream leaders the reviewers and the sponsors for the efforts And to the 90 participants from 20 countries Austria Bosnia Herzegovina Canada Croatia Germany Hong Kong Hungary Netherlands Mexico Portugal Poland Romania Russia South Africa Serbia Slovakia Spain Thailand United Kingdom United States A special word to Prof Gaby Neumann from Wildau who organized the Proceedings Let us make TAKE 2017 a great occasion and help save the knowledge economy a bit Eduardo Tom Conference Chair Zagreb July 2017
