BATTERY INSTALLATION

Your radio operates with 3 AAA alkaline batteries or NiMH rechargeable batteries. The belt clip should be removed to ease installation or removal of the batteries.

To install the batteries:

1. With the back of the radio facing you, remove the belt clip (see diagram below) for easy access, then remove the Battery Cover by pressing down on the top center and sliding it down from the radio.
2. Insert 3 AAA batteries observing the polarity as shown on the Battery Compartment. Installing the batteries incorrectly will prevent the unit from operating or may damage the unit.
3. Return the Battery Cover by sliding it up on the radio. Replace the belt clip, making sure it locks into place.

CHARGING THE BATTERY

Your radio is equipped for using rechargeable NiMH batteries which can be recharged by inserting the AC adapter into the radio charge jack. Initial charge time is 14 hours. Charge time is about 12 hours thereafter. For maximum battery life, we recommend charging the batteries when the low battery icon comes on. Remove the radios from the charger when the charge time expires.

1. Only use our NiMH batteries.
2. Do not attempt to charge alkaline batteries or any batteries or battery packs other than the one indicated in the manual. This may cause leakage and damage to the radio.
3. For long term storage of the radio, turn the radio OFF and remove the batteries from the radio.

LOW BATTERY LEVEL INDICATION

When the battery voltage gets low, the LOW BATTERY ICON will blink along with the message "Lo" on the display. When using the rechargeable battery pack, the low battery icon will indicate that you are very close to the batteries being exhausted. When using AAA alkaline batteries, the low battery icon means you have about 50% of battery life remaining.
