The temperature display will light up for both the refrigerator and the freezer sections.

- Press the On/Off button for the refrigerator section on the left hand side of the control panel until the temperature display for the refrigerator section goes out.

The refrigerator section is now switched off.

The temperature display for the freezer section will remain lit up.

To switch the refrigerator section on again

- Press the On/Off button on the left hand side of the control panel again.

The refrigerator section temperature display will light up. The refrigerator section will start cooling. The interior light will come on when the door is opened.

Switching off for longer periods of time

If the appliance is not going to be used for a longer period of time, e.g. whilst on holiday:

- switch the appliance off,
- disconnect it from the mains,
- clean the appliance out and
- leave the doors ajar to air it.

If, during a long absence, the appliance is switched off but not cleaned out and the doors are left shut, there is a danger of mould and odours building up inside the appliance.
