Kabbalah for Beginners Michael Laitman,2007-01-01 A book for everyone who is seeking answers to life s essential questions We all have problems we want to know why we are here why there is pain and how we can make life more enjoyable The four parts of this book tell us exactly how the wisdom of Kabbalah came about who discovered and

developed it and what they discovered Afterwards the book tells us about the world we live in and finally it explains how we can make our lives better for ourselves and for our children Part One discusses the discovery of the wisdom of Kabbalah and how it was developed and finally concealed until our time Part Two introduces the gist of the wisdom of Kabbalah using 10 easy drawings to help us understand the structure of the spiritual worlds and how they relate to our world These drawings are accompanied by explanatory texts that make understanding Kabbalah very easy Part Three reveals Kabbalistic concepts that are largely unknown to the public For example the Creator exists nowhere but within us our senses reveal what they sense not what is really out there and reality is nothing but a reflection of our perception and hence changes when we change Part Four elaborates on practical means you and I can take in order to make our lives here better and more enjoyable for us and for our children It explains how we can implement Kabbalistic principles such as freedom of choice and the power of society and thus become more whole and fulfilled individuals

Essays on Vedanta and Western Philosophies Arun Chatterjee, 2018-07-10 Philosophical issues such as reality and appearance God and world self and not self rebirth and immortality free will and determination mysticism etc have been examined by eastern and western philosophers as far back as the sages of Upanishads 700 BCE in the East and Plato 400 BCE in the West However there was no significant communication among the philosophers of the East and West perhaps until the eighteenth century Arthur Schopenhauer 1788 1860 was one of the first among the great western philosophers to recognize the value of Indian philosophies Despite the lack of communication there are striking similarities of concepts and issues addressed by Indian and western philosophies Also interesting is how similar are the mystical versions of different religions of the East and West The author Dr Arun Chatterjee has attempted to bring out the similarities and differences in various chapters of this book dealing with different topics Among Indian philosophies the focus is on Vedanta philosophy and the views of Sri Aurobindo 1872 1950 The views of Swami Vivekananda 1863 1902 also are presented Other Indian philosophies such as Sankhya and Buddhism are discussed briefly Among western religions Judaism Christianity and Islam are discussed

A Beginners Guide to Living Kabbalah William G. Gray,2009-10 This compendium comprises six Kabbalistic works by William G Gray some of which are appearing here in print for the first time The texts included in this compilation are ranging from the simplest introduction to the Spheres and Paths of the Kabbalistic Tree of Life system to related meditation techniques and associated ritual magical procedures to an advanced system of what could be termed inter dimensional spiritual communication The title A BEGINNERS GUIDE TO LIVING KABBALAH is perhaps somewhat misleading as this compilation equally contains works of an advanced nature and the ritual and meditation techniques addressed in this tome pertain to both beginners as well as advanced practitioners of Practical Kabbalah
