International Perspectives of Crime Prevention 5 Marc Coester, Erich Marks, 2013-09-04 The German Congress on Crime Prevention GCOCP is an annual event that takes place since 1995 in different German cities and targets all areas of crime prevention. Since its foundation, the GCOCP has been open to an international audience with a growing number of non-German speaking participants joining. To give the international guests their own discussion forum, the Annual International Forum AIF within the GCOCP was established in 2007. For international guests, this event offers lectures in English language as well as other activities within the GCOCP that are translated simultaneously. This book gives the outcomes of the 6th AIF 16 and 17 April 2012 in Munich. The articles reflect worldwide views on crime prevention and criminal policy as well as the current status, discussion, research, and projects in crime prevention from different countries. Also, the Munich Declaration is included, a report about the key findings of the congress.

States Without Nations Jacqueline Stevens, 2009-11-17 As citizens, we hold certain truths to be self-evident: that the rights to own land, marry, inherit property, and especially to assume birthright citizenship should be guaranteed by the state. The laws promoting these rights appear not only to preserve our liberty but to guarantee society remains just. Yet considering how much violence and inequality results from these legal mandates, Jacqueline Stevens asks whether we might be making the wrong assumptions. Would a world without such laws be more just? Arguing that the core laws of the nation-state are more about a fear of death than a desire for freedom, Jacqueline Stevens imagines a world in which birthright citizenship, family inheritance, state-sanctioned marriage, and private land ownership are eliminated. Would chaos be the result? Drawing on political theory and history and incorporating contemporary social and economic data, she brilliantly critiques our sentimental attachments to birthright citizenship, inheritance, and marriage and highlights their harmful outcomes, including war, global apartheid, destitution, family misery, and environmental damage. It might be hard to imagine countries without the rules of membership and ownership that have come to define them, but as Stevens shows, conjuring new ways of reconciling our laws with the condition of mortality reveals the flaws of our present institutions and

Introduction to Public Health for Chiropractors Michael Haneline,William C. Meeker,2010-10-25 Public health is of concern to practicing chiropractors as well as chiropractic students The vast majority of chiropractors utilize public health concepts every day as an integral part of patient care For instance they give advice on risk factors that should be avoided and protective factors to be added by their patients to enhance healing and prevent illness Pubic health is also part of the curriculum at all chiropractic colleges and is tested by the National Board No public health textbooks are available that are specifically designed for the chiropractor Consequently college instructors are forced to make do with class notes and generic texts that do not address the specific issues relevant to chiropractic This book will not only be of interest to chiropractic students but also practicing chiropractors because it will provide information they can utilize to provide better care by positively intervening with their patients and their communities regarding public health matters *Report* ,2014
