Outstanding Assessment for Learning in the Classroom Jayne Bartlett, 2015-03-24 The main feature of an outstanding lesson is that all students make progress Taking the structure of a lesson as the starting point this book demonstrates how assessment for learning can be used to enhance and support all aspects of the learning process Including chapters on embedding assessment during each phase of the lesson using assessment data to inform planning questioning techniques and feedback the book will help you to use assessment effectively to produce outstanding results Packed full of practical strategies this book shows you how you can make assessment meaningful in the classroom directly impacting your students and creating a more autonomous learning environment It is written specifically with the class teacher in mind and draws on a range of different examples across many subjects to deliver ideas that can be translated with ease to everyday teaching practices With a strong focus on including assessment practices in the planning process to achieve outstanding results this book covers assessment for learning and an overview of the learning cycle practical teaching strategies and effective techniques to use in the classroom marking feedback and using data to drive learning embedding assessment for learning in your classroom department and school An effective guide for outstanding teaching and learning this book offers an innovative approach and is packed full of practical exercises that are easy to apply in the classroom proving essential reading for newly qualified and experienced teachers alike

Assessing the Needs of Bilingual Pupils Deryn Hall, Dominic Griffiths, Liz Haslam, Yvonne Wilkin, 2012-08-06 Ever since its publication in 1995 this book has offered a means for teachers to consider why some bilingual pupils in their classrooms are not making learning progress or are academically underachieving This new second edition has been revised and updated in the light of the new government legislation and guidance most significantly the revised Code of Practice for Special Educational Needs It continues to look at ways of asking questions about the pupil of collecting evidence of both learning and language development and of offering support within the classroom It contains a model and photocopiable proformas for use within schools which should help to establish clear systems of identification of those bilingual pupils who may have special learning needs and to distinguish these from the need for language support

Lessons in Teaching Computing in Primary Schools James Bird, Helen Caldwell, Peter Mayne, 2014-07-18 Lesson planning in line with the new Primary National Curriculum This book goes much further than explaining to teachers the knowledge that the new computing curriculum requires It is about teaching and learning rather than simply teaching computing as an academic subject The new computing curriculum is explored in manageable chunks and there is no scary language everything is explained clearly and accessibly You will find example lesson plans alongside every element of the curriculum as support and inspiration when planning your own lessons It inspires an approach to teaching computing that is about creativity and encouraging learners to respond to challenges and problems using technology as a tool Ideas for taking the lesson further assessment and reflective questions for you are also included after
