Macroeconomics: Canadian Edition Paul Krugman, Robin Wells, Iris Au, Jack Parkinson, 2018-03-09 When it comes to explaining fundamental economic principles by drawing on current economic issues and events there is no one more effective than Nobel laureate and New York Times columnist Paul Krugman and co author Robin Wells In this best selling introductory textbook Krugman and Wells signature storytelling style and uncanny eye for revealing examples help readers understand how economic concepts play out in our world Canadian co authors Jack Parkinson and Iris Au have enhanced the text with current Canadian examples This new edition is revised and enhanced throughout including a much stronger array of superior online tools that are part of a complete integrated online learning system Microeconomics Avinash Dixit, 2014-04 The issues of microeconomics including individuals financial choices and firms decisions about hiring and firing have a large impact on the economic world arguably as much if not more than macroeconomics In this Very Short Introduction Avinash Dixit clearly explains what microeconomics is by using examples from around the world COLLECTIVE INSTITUTIONS IN INDUSTRIALIZED NATIONS: Economic Lessons for sub-Saharan Africa Samuel Enajero, Ph.D., 2015-12-08 Fundamental institutions are core values that originate from beliefs Beliefs reflect on behaviors and repeated behaviors become habits Shared habits are peoples values which when ingrained become norms and customs Societies that believed in human interdependency formed collective institutions These institutions are compatible with modern economic prosperity Thus Contrary to conventional economic teaching which implies that behaviors including preferences are biologically determined all socially relevant behaviors including economic behaviors are acquired learned and routinized through habits institutions in which individuals find themselves Again contrary to popular beliefs that economics is about pursuit of self interest as stipulated by Adam Smith 1776 the pursuit of self interest does not translate to selfishness For example an entrepreneur relies on public capitals and skilled labors to succeed a producer relies on adequate consumption to produce at capacity a firm s profit is enhanced with higher consumer income etc Therefore capitalism is a function of collective institutions Collectivism is a solution to group interdependency People sharing the same space are interdependent and are faced with interdependency costs Interdependency cost equals external cost plus decision making cost Failures to eliminate or minimize external costs externalities through collectivization of activities result to resource misallocation The problem of sub Saharan Africa Moreover modern development theories are constructed around macroeconomic variables Money banking interest rate savings trade liberalization financial assets deficit and debt management are modern macroeconomic development tools These are based on aggregation of data and variables Thus collectivism is more pronounced in macroeconomic policies Yet many emerging nations of sub Saharan Africa do not find it mandatory to build all inclusive economies by mobilizing resources en masse *Macroeconomics* Paul R.
