

Tropical Rainforests

A vibrant illustration of a tropical rainforest. In the foreground, a toucan with a large, colorful beak is perched on a branch. Behind it, a monkey is visible among the dense green foliage. The background shows more trees and a bright, sunlit area, suggesting a deep forest environment.

Parts of a rainforest

Scientists divide the rainforest into strata or layers. Starting from the top the layers are:

Emergent
Canopy
Understorey
Forest Floor

What can you find in a rainforest?

In rainforests you can find colourful birds calling, monkeys leaping through trees, giant flowers - there are more kinds of plants and animals in rainforests than anywhere else on earth.

Damaging the rainforest

Every day thousands of acres of rainforest are being cleared for raising cattle or for farming. Other land is cleared of trees for making lumber or to build roads, mines and dams.
