Dog behaviour chapter updated and revised to reflect the latest thinking about the process of domestication of the dog and its relevance to training methods. Additional photographs added throughout for enhanced understanding and clarity. Entire text accessible as an e-book with full note making, referencing and search functionality. **Exotics and Wildlife**

Caroline Gosden, 2004 Offering practical advice on nursing care for the exotic pet, this much needed resource provides everything veterinary nurses need on the subject in one valuable book. Ideal as a reference tool for daily use in the clinical management of exotic pets, it applies information on the treatment of domestic species to exotic pets with coverage that is specifically relevant to these species. Providing a hands on approach, a nursing focus and a concentration on exotics, it includes discussions of common diseases, anaesthesia, radiography, supportive nursing, administering medication, housing and nutrition for the sick animal and international species. This one stop reference tool is perfect for use in the daily clinical management of exotic species. Comprehensive information is presented on the day to day management of the more unusual patient. Practical advice is given on providing effective nursing care for the exotic pet. Unique Tips of the Trade are offered by VNs with experience working with this type of patient. **BSAVA Textbook of Veterinary Nursing** Barbara
