Manual Platina 2005:

The Oxford Handbook of Christian Monasticism Bernice M. Kaczynski, 2020-09-30 The Handbook takes as its subject the complex phenomenon of Christian monasticism. It addresses for the first time in one volume the multiple strands of Christian monastic practice. Forty-four essays consider historical and thematic aspects of the Catholic, Eastern Orthodox, Oriental Orthodox, Protestant, and Anglican traditions, as well as contemporary new monasticism. The essays in the book span a period of nearly two thousand years from late ancient times through the medieval and early modern eras on to the present day. Taken together, they offer not a narrative survey but rather a map of the vast terrain. The intention of the Handbook is to provide a balance of some essential historical coverage with a representative sample of current thinking on monasticism. It presents the work of both academic and monastic authors, and the essays are best understood as a series of loosely linked episodes forming a long chain of enquiry and allowing for various points of view. The authors are a diverse and international group who bring a wide range of critical perspectives to bear on pertinent themes and issues. They indicate developing trends in their areas of specialisation. The individual contributions and the volume as a whole set out an agenda for the future direction of monastic studies. In today's world, where there is increasing interest in all world monasticisms, where scholars are adopting more capacious global approaches to their investigations, and where monks and nuns are casting a fresh eye on their ancient traditions, this publication is especially timely.

The Disciple's Handbook Fr. David L. Hall, 2020-02-05 Twenty years ago God led me to the writings of the church fathers, and then on a journey that changed my life I discovered the amazing spiritual depth throughout all the eras of the church and began to realize that I was settling for scraps when God had prepared a banquet. This handbook was written as an aid to Christians from all traditions to help them hit the ground running to discover even greater depth and passion in their walk with Christ.

Baking Powder Wars Linda Civitello, 2017-05-22 First patented in 1856, baking powder sparked a classic American struggle for business supremacy. For nearly a century, brands battled to win loyal consumers for the new leavening miracle transforming American commerce and advertising, even as they touched off a chemical revolution in the world's kitchens. Linda Civitello chronicles the titanic struggle that reshaped America's diet and rewrote its recipes. Presidents and robber barons, bare-knuckle litigation and bold-faced bribery, competing formulas and ruthless pricing. Civitello shows how hundreds of companies sought market control, focusing on the big four: Rumford, Calumet, Clabber Girl, and the once popular brand Royal. She also tells the war's untold stories from Royal's claims that its competitors sold poison to the Ku Klux Klan's campaign against Clabber Girl and its German Catholic owners. Exhaustively researched and rich with detail, *Baking Powder Wars* is the forgotten story of how a dawning industry raised Cain and cakes, cookies, muffins, pancakes, donuts, and biscuits.
