
MANUAL CONTRACT DOCUMENTS FOR HIGHWAY WORKS

INTRODUCTION TO THE MANUAL OF CONTRACT DOCUMENTS FOR HIGHWAY WORKS - 7TH EDITION INCLUDING THE AUGUST 1993 AMENDMENTS

What is it:

- The Specification for Highway Works has become a standard component of UK highway contracts since its introduction in 1951.
- It has developed through six previous revisions.
- As a result it has become a more lengthy and complex document.
- Highways version of CESMM
- MNHW is free on highways website

Barriers to Trade:

- Some believe that it too much restriction to the Contractor, by specifying product name rather than by end performance.
- In recent years pressure has grown on the DoT (Department of transport), to relax some of these constraints.
- This will encourage the development of innovative procedures and new materials.
- It will also remove potential barriers to trade which may prevent the use of otherwise acceptable products from other EC member states.

Changes from the 6th edition:

- It is the barrier to trade, and the emergence of the Single European Market led to the Seventh Edition of the SHW.
- Consequently a commission was led to:-
 - Amend the 6th Edition of the SHW to take account of European legislation, and amendments and republish.
 - Revise associated documents to changes in SHW such as contract documents.
- Directive 83/189 meant that "technical regulations" had to be notified to the European commission, who would issue their objections on submitted information
- The documents were first updated to take account of technical amendments and then examined to remove potential barriers to trade.
- The SHW, Notes for Guidance and Highway Construction Details were then submitted to the EC and consultation with various UK bodies was carried out during the notification period.

Ease of Use:

- There was a need to improve the user-friendliness of contract documentation.
- In recognition of this it was decided that a loose-leaf manual comprising all the documents necessary for a highway would be the best solution.
- It was also decided to reintroduce the Notes for Guidance to the MNHW as it is poorly understood.

Future Updates:

- The new Specification is standard documentation.

Claims on Highway Contracts Robert N. Hunter,1997 Most civil engineering projects carried out in the UK which are concerned with the construction or maintenance of highways employ the 5th edition of the ICE Conditions of Contract and the Manual of Contract Documents for Highway Works In order to maximise returns in construction works or often nowadays to minimise losses it is necessary for engineers contractors and clients to have a full understanding of these documents particularly those elements which have a financial connotation Claims on highway

contracts has been specifically written to explore those parts of the 5th edition of the ICE Conditions of Contract and the Manual of Contract Documents for Highway Works which are particularly important in the commercial aspects of highway contracts and to examine how they apply in claims situations There have been many books written on claims by lawyers which are full of legalese Claims on highway contracts is the first and only book which has been written by a practising engineer who works in this field and has experience of the claims minefield to provide advice in a practical and straightforward manner Manual of Contract Documents for Highway Works Great Britain: Highways Agency, 2003-08-15
