Is the Self Real? Till Vierkant, 2003 This book attempts to give a convincing philosophical explanation for the strong persistence of our diverse folk psychological intuitions about the self For this purpose it introduces on the one hand the distinction between subject and self model as proposed by Metzinger on the other hand the distinction between a social normative and a cognitive organic perspective on the self The book argues that one needs to take into account both distinctions if one wants to answer notoriously difficult questions like the one that gives the book its title Is the self real
BOOK JACKET Particles + Waves with Plausibility Dennis Balk, 2005 The first monograph by artist Dennis Balk employs various forms of visual expression from abstract to straight photography to explore the relationship between models for subatomic particles and the day to day life of human beings As Balk examines the boundaries between science and culture he contends that the process frames this science which becomes a narrative that facilitates a kind of reality With bold graphic images and vibrant colour Particles Waves With Plausibility is sure to appeal to the scientifically minded aesthete **Signal**
