Exclusion and Inclusion in International Migration: Power, Resistance and Identity Armağan Teke Lloyd, 2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism instability and criminality The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants although the

focus is largely on the former Despite the fact that most of the empirical studies are drawn from within Europe the book also includes research on Nepal Australia the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this Content INTRODUCTION by Arma an Teke Lloyd PART A Ideology and Governance of Migration CHAPTER 1 Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin CHAPTER 2 A Forest with many trees Mapping migration governance and the dispersion of authority in Europe by Lisa Marie Borrelli Rebecca Mavin and Giorgia Trasciani CHAPTER 3 Policing Migrants in Transit and Upon Arrival The Bordering Tactic of Integration in Austria and Germany by Olivia Johnson PART B Regulations Suspension of Human Rights CHAPTER 4 Borders Exception and Sovereignty Australia s Migration Policies as Instruments of Suspension of Human Rights and International Obligations by Ana Carolina Macedo Abreu CHAPTER 5 Power and Sandwiched Sovereignty Nepali Migrant Workers in the Gulf Countries by Hari KC CHAPTER 6 The Body and Embodied Experiences in the British Asylum System Developing a Conceptual Perspective by Rebecca Mavin CHAPTER 7 Eritrean Unaccompanied Refugee Minors in The Netherlands Wellbeing and Health by Anna de Haan Yodit Jacob Trudy Mooren and Winta Ghebreab PART C Migrants Strategies and Identities CHAPTER 8 Social Inclusion Processes for unaccompanied minors in the city of Palermo Fostering Autonomy through a New Social Inclusion Model by Roberta Lo Bianco and Georgia Chondrou CHAPTER 9 Urban Resistances and Migrant Activism Challenging the Border Regime in Madrid City by Ana Santamarina and Almudena Cabezas CHAPTER 10 RefConnect A Mobile Social Network for Refugees by Evdokia Kogia Styliani Liberopoulou Nikolaos Alamanos Vasilis Pierros and Christos Michalakelis CHAPTER 11 Halo Halo Nostalgia and Navigating Life for Overseas Filipino Workers OFW s in the Kingdom of Saudi Arabia by Simeon S Magliveras

Services,2015-09-10 In the devastation that follows a major disaster there is a need for multiple sectors to unite and devote new resources to support the rebuilding of infrastructure the provision of health and social services the restoration of care delivery systems and other critical recovery needs In some cases billions of dollars from public private and charitable sources are invested to help communities recover National rhetoric often characterizes these efforts as a return to normal But for many American communities pre disaster conditions are far from optimal Large segments of the U S population suffer from preventable health problems experience inequitable access to services and rely on overburdened health systems A return to pre event conditions in such cases may be short sighted given the high costs both economic and social of poor health Instead it is important to understand that the disaster recovery process offers a series of unique and valuable opportunities to improve on the status quo Capitalizing on these opportunities can advance the long term health resilience and sustainability of communities thereby better preparing them for future challenges *Healthy Resilient and Sustainable Communities After Disasters* identifies and recommends recovery practices and novel programs most likely to impact overall community public health and contribute to resiliency for future incidents This book makes the case that disaster recovery should be guided by a healthy community vision where health considerations are integrated into all aspects of recovery planning before and after a disaster and funding streams are leveraged in a coordinated manner and applied to health improvement priorities in order to meet human recovery needs and create healthy built and natural environments The conceptual framework presented in *Healthy Resilient and Sustainable Communities After Disasters* lays the groundwork to achieve this goal and provides operational guidance for multiple sectors involved in community planning and disaster recovery *Healthy Resilient and Sustainable Communities After Disasters* calls for actions at multiple levels to facilitate recovery strategies that optimize community health With a shared healthy community vision strategic planning that prioritizes health and coordinated implementation disaster recovery can result in a communities that are healthier more livable places for current and future generations to grow and thrive communities that are better prepared for future adversities *Yearbook of International Organizations 2014-2015 (Volume 4)* Union Of International Associations,Union of International Associations,2014-09-17 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Providing both an international organizations and research bibliography Volume 4 cites over 46 000 publications and information resources supplied by international organizations and provides nearly 18 000 research citations under 40 subject headings This volume also includes a research bibliography on international organizations and transnational associations **China and Its Small**

Neighbors Sung Chull Kim, 2023-03-01 In *China and Its Small Neighbors* Sung Chull Kim examines the political implications of the economic asymmetry between China and its small neighbors part of wider changes in international relations brought about by the rise of China While being critical of the current trend that focuses on the China U S rivalry alone Kim argues that a microanalysis of China's advances toward its neighbors is a guide to understanding the trajectory of China's expanding influence and transitions in world politics more broadly Economic asymmetry as seen in trade concentration non transparency and reliance on bilateral aid has made China's small neighbors vulnerable on the political front thus generating potential threats to their sovereignty and independence Because China has the upper hand in the bilateral relationships these weak states practice dual core hedging as a strategy for survival They hedge on China for expected economic benefits and at the same time hedge against their powerful neighbor to mitigate the risks involved in that hedging on Each small state's mode of hedging depends on its degree of vulnerability and its availability of policy instruments such as multilateral institutions and bilateral partnerships with extra regional powers *The State of African Cities, 2014* United Nations Human Settlements Programme, 2013 Nairobi UN Habitat c2014 9789211325980 *Annual Magazine Subject-index* ,1915

Ukraine Over the Edge Gordon M. Hahn, 2018-02-08 The Ukrainian crisis that dominated headlines in fall 2013 was decades in the making Two great schisms shaped events one within Ukraine its western and southeastern parts divided along cultural and political lines the other was driven by geopolitical factors Competition between Russia and the West exacerbated Ukraine's divisions This study focuses on the historical background and complex causality of the crisis from the rise of mass demonstrations on Kiev's Maidan Nezalezhnosti Independence Square to the making of the post revolt regime In the context of a new cold war the author sheds light on the role of radical Ukrainian nationalists and neofascists in the February 2014 snipers massacre the ouster of President Viktor Yanukovich and Russia's seizure of Crimea and involvement in the civil war in the eastern region of Donbass ***The State of African Cities, 2014*** United Nations Publications, 2015-09-10 The African continent is currently in the midst of simultaneously unfolding and highly significant demographic economic technological environmental urban and socio political transitions Africa's economic performance is promising with booming cities supporting growing middle classes and creating sizable consumer markets Despite significant overall growth the continent continues to suffer under very rapid urban growth accompanied by massive urban poverty and many other social problems These seem to indicate that the development trajectories followed by African nations since post independence may not be able to deliver on the aspirations of broad based human development and prosperity for all This report therefore argues for a bold re imagining of prevailing models in order to steer the ongoing transitions towards greater sustainability based on a thorough review of all available options That is especially the case since the already daunting urban challenges in Africa are now being exacerbated by the new vulnerabilities and threats associated with climate and environmental change *The Magazine Subject-index* ,1915 Contains the cumulation of the subject index issued in the quarterly numbers of the Bulletin of
