

Agricultural Science (501/1, 2, 3) Preamble

The Examinations Council of Zambia has made adjustments to the assessment of Agricultural Science at Grade 9 level so as to be in line with the revised Agricultural Science Junior Secondary School Syllabus of 2013 developed by Curriculum Development Centre (CDC) of the Ministry of Education, Science, Vocational Training and Early Education (MESVTEE).

The purpose of the specimen papers is to guide the teachers and would be candidates on the nature and content of the Grade 9 Agricultural Science examination which will begin to be administered in 2015 examination session.

Assessment Aims and Objectives

The purpose of the Grade 9 Agricultural Science examination is to test candidate's understanding and ability to apply the subject in real life. Assessment of Grade 9 students in Agricultural Science will contribute to the certification of candidates, measurement of academic attainment, promotion of learners to Grade 10 and feedback to educators on effectiveness of instruction. The Grade 9 examination will assess candidate's performance against the following three (3) Assessment Objectives:

1. knowledge with understanding
2. handling of information and problem solving
3. practical activities.

Test Design

The Grade 9 examination will consist of three papers: Paper 1 (501/1), Paper 2 (501/2) and Paper 3 (501/3).

Paper 1 (1 Hour) will consist of 40 compulsory multiple choice items (questions) carrying 40 marks. The 40 questions will be drawn from all the topics of the syllabus.

Paper 2 (2 hours) will consist of 8 compulsory structured questions carrying 10 marks each. The 8 questions will also cover all the topics in the syllabus.

Paper 3 will be a school-based project done in the period beginning from Grade 8 term 3 and ending by Grade 9 term 2. Each pupil is expected to maintain records of project work in an exercise book or file which should be available for inspection and assessment. The Head of Department, Headteacher and Standards Officers in charge of Examinations at district level will monitor projects for candidates at different stages of implementation.

The number of questions and mark weighting is summarised below;

COMPONENT	PAPER TYPE	NO. OF QUESTIONS	MARKS	WEIGHTING OF MARKS	TIME ALLOWANCE
501/1	Multiple Choice	40	40	29%	1 hour
501/2	Theory	8	80	57%	2 hours
501/3	Project	1	20	14%	2 hours

Regulating and Managing Food Safety in the EU Harry Bremmers, Kai Purnhagen, 2018-08-01 This book analyses EU food law from a regulatory economic and managerial perspective It presents an economic assessment of strategies of food safety regulation and discusses the different regulatory regimes in EU food law It examines the challenges of food safety in the internal market as well as the regulatory tools that are available The book's generic theorising and measurement of regulatory effects is supplemented by detailed analysis of key topics in food markets such as health claims enforcement strategies and induced risk management at the level of the organizations producing food The regulatory effects discussed in the book range from classical regulatory analysis covering e.g. effects of ex ante versus ex post regulation and content related versus information related regulation to new regulatory options such as behavioral regulation The book takes as its premise the idea that economic considerations are basic to the design and functioning of the European food supply arena and that economic effects consolidate or induce modification of the present legal structures and principles The assessments analyses and examination of the various issues presented in the book serve to answer the question of how economic theory and practice can explain and enhance the shaping and modification of the regulatory framework that fosters safe and sustainable food supply chains

Food in America Andrew F. Smith, 2017-02-16 This three volume work examines all facets of the modern U.S. food system including the nation's most important food and agriculture laws the political forces that shape modern food policy and the food production trends that are directly impacting the lives of every American family Americans are constantly besieged by conflicting messages about food the environment and health and nutrition Are foods with genetically modified ingredients safe Should we choose locally grown food Is organic food better than conventional food Are concentrated animal feed operations destroying the environment Should food corporations target young children with their advertising and promotional campaigns This comprehensive three volume set addresses all of these questions and many more probing the problems created by the industrial food system examining conflicting opinions on these complex food controversies and highlighting the importance of food in our lives and the decisions we make each time we eat The coverage of each of the many controversial food issues in

the set offers perspectives from different sides to encourage readers to examine various viewpoints and make up their own minds. The first volume *Food and the Environment* addresses timely issues such as climate change, food waste, pesticides, and sustainable foods. Volume two entitled *Food and Health and Nutrition* addresses subjects like antibiotics, food labeling, and the effects of salt and sugar on our health. The third volume *Food and the Economy* tackles topics such as food advertising and marketing, food corporations, genetically modified foods, globalization, and megagrocery chains. Each volume contains several dozen primary documents that include firsthand accounts written by promoters and advertisers, journalists, politicians, and government officials, and supporters and critics of various views related to food and beverages, representing speeches, advertisements, articles, books, portions of major laws, and government documents, to name a few. These documents provide readers additional resources from which to form informed opinions on food issues.

The Climate Crisis Vishwas Satgar, 2018-02-01. Essays that address the question: how can people and class agency change this destructive course of history? Capitalism's addiction to fossil fuels is heating our planet at a pace and scale never before experienced. Extreme weather patterns, rising sea levels, and accelerating feedback loops are a commonplace feature of our lives. The number of environmental refugees is increasing, and several island states and low-lying countries are

becoming vulnerable Corporate induced climate change has set us on an ecocidal path of species extinction Governments and their international platforms such as the Paris Climate Agreement deliver too little too late Most states including South Africa continue on their carbon intensive energy paths with devastating results Political leaders across the world are failing to provide systemic solutions to the climate crisis This is the context in which we must ask ourselves how can people and class agency change this destructive course of history Volume three in the Democratic Marxism series The Climate Crisis investigates eco socialist alternatives that are emerging It presents the thinking of leading climate justice activists campaigners and social movements advancing systemic alternatives and developing bottom up just transitions to sustain life Through a combination of theoretical and empirical work the authors collectively examine the challenges and opportunities inherent in the current moment This volume builds on the class struggle focus of Volume 2 by placing ecological issues at the centre of democratic Marxism Most importantly it explores ways to renew historical socialism with democratic eco socialist alternatives to meet current challenges in South Africa and the world
