medicine quality safety and efficacy direct to consumer advertising and marketing directed at health professionals It traces these harms through the colonial foundations and evolution of medicine regulation in Australia exploring both regulatory failure and the attempts at reforming this regulatory system It argues that neoliberalism is not regulatable and reinforces and sustains itself empowering the state and corporations while disempowering the public and those representing its interests Thus reducing its harms is only achievable through broader transformative change rather than by reforming and thereby continuing to work within the existing neoliberal capitalist system Neoliberalism State Corporate Power and Regulatory Failure will be of value to practitioners members of the public and private sector and academics active in the fields of state corporate and state corporate crime social harm and regulation as well as to those new to the study of medicine related harms It will also be of interest to all those concerned about their health and the medicines they use
