L'homme Du Soir:

Neurological Problems Jerzy Choróbski, 2017-07-26 *Neurological Problems* describes the clinical and pathological aspects of numerous neurological disorders. This book is organized into four parts encompassing 69 chapters. The opening part provides an introduction to the close relationship between the central nervous system and the categories of pathological reactions in man. The next parts deal first with certain problems concerning peripheral vasomotor activity followed by discussions on neurophysiological mechanisms and chemical aspects of neurological problems. The last part presents considerable clinical manifestations and case studies of these problems. This book is of value to neurologists, neurophysiologists, pathologists, and clinicians.

Jean Delville Brendan Cole, 2014-11-10 This book is the first full length study of the art and writings of Jean Delville. As a member of the younger generation that emerged during the end of the nineteenth century he was a dynamic leader of a group of avant garde artists who sought to establish a new school of Idealist Art in Belgium. He was one of the most talented painters of his generation producing a vast body of works that in both scale and technical accomplishment is unsurpassed amongst his contemporaries. In his extensive writings in contemporary journals and books he pursued a singular vision for the purpose of art to serve as a vehicle for social change as well as to inspire individuals to be drawn to a higher spiritual reality. Delville's thinking is heavily indebted to the hermetic and esoteric philosophy that was widely popular at the time and his paintings, poetry and writings reformulate the main tenets of this tradition in a

contemporary context In this regard his aesthetic and artistic goals are similar if not identical to those found in the writings and art of Kandinsky and Mondrian during the early twentieth century
