that four year colleges and universities provide will retain its value for the traditional age range of college students Less certain Archibald and Feldman argue is whether the system will continue to be a force for social and economic opportunity The threats are most dire at schools that disproportionately serve America s most underprivileged students At the same time growing income inequality reduces the ability of many students and their families to pay for higher education Archibald and Feldman suggest a range of policy options at the state and federal level that will help America s higher education system continue to fulfill its promise
