Originally the Native Americans came from Asia. Over 20,000 years ago, they traveled along land between Siberia and Alaska. Before the Europeans came to America, there were over 300 different groups or tribes.

Not all tribes lived in the same way. Some tribes lived in small earth houses and grew their own food. Some ate only the grasses, nuts and fruit they could find. Other tribes were fishermen and lived in wooden houses.

Most Native American tribes were very peaceful. They wanted to live happily with nature and each other. They thought spirits lived in natural things such as rocks, trees or water. They believed these spirits could bring success in hunting, farming, fighting or marriage. They held special ceremonies with dancing and music for these events.

Native American songs and poetry are an important part of their tradition. Most tribes didn't have a written language or history, so it was a way of keeping their stories and culture alive. Another tradition among some Native Americans was the peace pipe. When they smoked this pipe with a stranger, it meant friendship and peace.

Now most Native Americans live in the empty lands west of the Mississippi River. Many live on "reservations", land that the Government recognizes is theirs.

Because they do not want their old traditions to die, Native Americans hold festivals called "pow-wows" in different parts of the United States. They perform their dances and show their art and music. They also have these ceremonies to help their children understand their culture and history. Two very large festivals are the Bald Eagle Gathering in Glacier national Park, Montana, in late October, and the United Tribes Pow Wow, which takes place each September in North Dakota.

**Beyond the Culture Tours** Gladys Cruz,Sarah Jordan,Jos, Mel,ndez,Steven Ostrowski,2013-10-11 In calling this book *Beyond the Culture Tours* the authors bring the reader s attention to a set of issues in the teaching of literature and culture The Culture Tour is an old concept in the West dating back to the seventeenth century The educated young man it was an exclusively male project at first was expected to round off his education with the Grand Tour This meant a visit to the major sites on the European continent particularly Greece and Rome and occasionally to the Holy Land The object was to have a first hand view of these monuments and looking at them alone brought people the name of being cultured or well traveled As the idea spread in the early part of the twentieth century it allowed for the vicarious tour rather than the actual one Students were asked to look at collections of art or reproductions of art work listen to concerts or later recordings and to read certain classical works drawn from what has come to be known as the canon The point of this form of education was that exposure to these works in itself formed a version of the Grand Tour The basic idea behind the tour approach is that exposure to a culture in books is like travel to an ethnic theme park This volume looks beyond the tour approach and reports on the results of a four year project undertaken by a research team from the National Center for Research in the Learning and Teaching of Literature Their intent was to study the teaching and impact of multicultural literature The team examined how students approached texts that either came from their culture or from another and how teachers perceived the students the literature and their role This volume details various aspects of their findings      **Leveled Texts: American Indian Tribes of the**
