requirements that are also bullet pointed in journalism assignment outlines A text has to synthesize the existing body of knowledge explain concepts clearly have a logical order of topics and provide enough information and directions to pursue further study One may also hope it would include real life examples and be lucid vivid and a pleasure to read Hard to find Not anymore The new SAGE series Journalism Studies Key Texts satisfies the main requirements on the list Carefully planned and meticulously edited by Martin Conboy David Finkelstein and Bob Franklin the textbook series is a welcome contribution to the literature of journalism studies All three books follow the same structural template an overview of historical development explication of the political and economic frameworks within particular types of journalism a review of contemporary practices social demographics a comparative analysis of practices around the world a summary of main conceptual approaches an indication of future directions recommendations for further reading This strong organization resembles a template for a course outline This is intentional because the series is aimed both at students and their practice based lecturers who often come straight from industry and need time to adjust to the academic environment The series achieves its aim to bridge the sometimes too evident dissonance between journalism theory and practice They successfully situate discussions about journalism in social and historical contexts We see the faces of individual journalists the circumstances of news production the relationship with owners the battle between the public service and the profit nature of news the relevance of journalism work The detailed account of the conditions under which newspaper radio and alternative journalism is produced and performed make the Journalism Studies Key Texts series mandatory reading for both journalism students and their lecturers

Career In Journalism Anthony Ekanem, 2016-09-20 A great many people who want to be writers say that they want to have a career in journalism They may envision themselves going to exotic locales to cover stories While these things do happen to journalists it takes a long time to make your bones before you are sent on any interesting assignments A journalist

is someone who reports on timely events Timing is everything to a journalist Whether you write for a periodical or a newspaper you need to make sure that your articles are timely Your purpose is to keep the public as up to date as possible when it comes to news and events that may affect them This is the basic concept of being a journalist You should report on all sides of a story not just take one side even if it appears that one side is right or wrong A good journalist gets all sides of the story prints it and then lets the reader decide based upon the article A good journalist does not make up the reader s mind for them As you continue in your career you will find your voice when it comes to your writing Do not be surprised if your first articles are rewritten by your editor Another rule that you need to learn when you are starting a career as a journalist is to not fall in love with your own work Do not feel hurt if an editor does not like a phrase in your article or makes some changes They are only doing their job You will soon get to know the editor and they will get to know your style of writing
