

# Vertebrates and Invertebrates

## Objectives:

Students will gain an understanding of the differences between vertebrates and invertebrates.

## Materials:

Crayons

Fish

2 poster boards

Magnifying

Shrimp

Plank

Clown

Octopus

## Activity:

### Introduce

- Discuss the two new names - vertebrates and invertebrates. Have the students look their new bookworms and earthworm bookworms. Ask students for examples of animals they think would fit into each group.

### Develop

- Lay out the spider, shrimp, and fish. Have the students guess whether they are animals with no vertebrates or invertebrates. Fold over side of the fish so that the bookworm is exposed. Fold over side of the shrimp. Have students look each animal and tell you if they find a bookworm or not. Does the fish's bookworm look like their own? What is the same place on their bookworm?

### Classify

- Have the students make two poster boards, one for vertebrates and the other for invertebrates. They can be made from pictures the students have drawn the spiders or pictures collected from magazines. Pictures gathering can be an assignment given out at home with the help of parents.

### Evaluate

- Informal teacher observation. Did the students appear to grasp the new concept? Were the pictures collected representative of vertebrates and invertebrates?
