Exploring Gender and Sikh Traditions Doris R. Jakobsh, 2021-09-01 This volume gathers scholars who focus on gender through a variety of disciplines and approaches to Sikh Studies The intersections of religion and gender are here explored based on an understanding that both are socially constructed Far from being static as so often presented in world religions textbooks religious traditions are constantly in flux responding to historical cultural and social contexts So too is the Sikh tradition in terms of practices ideologies rituals and notions of identity We here conclude that a Sikh tradition does not exist instead there are numerous forms thereof In this volume Sikhism is presented as a collection of Sikh traditions Gender studies in line with women s liberation masculine and feminist studies have long examined and have long deconstructed the patriarchy but also move to identify other subordinate dominant relations between individuals Indeed there are numerous forms of discrimination and power structures that simultaneously create a multiplicity of oppression Intersectionality has become the basis of an increasingly systematized production of contemporary discourses on feminism and gender analysis as is evidenced by the varied contributions in this volume Divinizing in South Asian Traditions Diana Dimitrova, Tatiana Oranskaia, 2018-06-14 The issue of divinizing in South Asian traditions has not been examined before as a process involving various methods to affect the socio cultural cognition of the community It is therefore essential to consider the context of
